WILLIAM E. HAWKINS

During the past seven years, I have served the U.S.A. Section as Editor of LETTERETTE and watched the Section and College grow in numbers and activities. As an officer of the Section, I have endeavored to maintain the stature of the College and once again, to further this goal, we are making a change in name of LETTERETTE to KEY to better tie together the theme of the College and Section. We are also changing the format, typestyle, and general layout of the publication. We were not able, as I had hoped, to secure a scientific article for this issue but in future issues we will have at least one scientific article in the KEY.

This will be my last issue as Editor of KEY as I assume the position of President-Elect of the Section on January 1, 1986, and therefore step aside for Fellow Don Shumaker to take over as your Editor. It has been extremely rewarding for me to serve in this capacity and have enjoyed the many friendships that came from it in this country and the world.

Sometimes, due to the pressures of everyday life, we misunderstand something or place too much emphasis on the clock. I am sure that I have done this and hope that anyone who submitted a story or article that failed to appear or was edited to a reduced size will forgive me and realize that deadlines, misplaced copy, and the priority lists are the ever present foes of the Editor.

I leave you with a thought to ponder from the writings of Khayyam.

The Moving Finger writes; and having writ,
Moves on: nor all thy Piety nor wit
Shall lure it back to cancel half a line,
Nor all thy Tears wash out a word of it.

Time is moving swiftly and unmercifully.

I take notice of those Fellows who have served their profession so well and who have brought great honor to the College. I note their infirmities and their passing. So it goes. Each year we lose about one hundred Fellows to infirmities or death.

However, you who continue to be active are asked to send us nominations from all fifty states. As you know, we do not have any quota in our selection of candidates, but we have set a maximum for each Class. The Class of 1986 was completed early in November, 1985, and notifications of acceptance are being mailed.

We have always stressed the fact that we want quality, not quantity. With that in mind, let me review the process we ask you to use to nominate a candidate for Fellowship. First, contact your Deputy Regent. He will advise you of the Screening procedures for your state, and following approval by the Screening Committee, he will furnish you an Information Form for your candidate. Remove the Endorsement Sheet before asking your candidate to fill in the form completely. Questions have been devised to provide the information we seek, and space should be ample for pertinent answers. When complete, forward this form with the endorsement sheet and supporting letters from two or three other Fellows to your Deputy Regent. He will see that it is signed by the Counselor and Regent and sent to the Central Office where the candidate's information is condensed and mailed to the Board of Regents for final ballot. The sponsor is notified of his candidate's acceptance around the time of the annual meeting when the next year's Class takes shape. Remember, we are now working on the Class of 1987 as 1986 is complete.

A new Roster will be published in 1986, so please keep us informed of any changes that may occur in your address.

I wish for you a wonderful and successful 1986.

President U.S.A. Section

WILLIAM V. PETERS

I extend the greetings and best wishes of the U.S.A. Section of the International College of Dentists to all Fellows and their families. I am very honored to serve as your President during 1986.

Due to the foresight of our organizational leaders of the International College of Dentists in seeking dentists of outstanding quality and leadership, the College continues to hold its prestigious standing throughout the dental community of the World.

Our new Fellows have been selected and chosen to carry on with these ideals. I congratulate the 200 new Fellows that were inducted into the College at our Annual Convocation in San Francisco. It is a wish of the College that they continue with their professional achievements and leadership. The College welcomes these Fellows and looks to the future so that they may carry on and continue to uphold the high quality of professionalism.

We must never forget the aim and purpose of the International College of Dentists. Its beginning was to recognize conspicuous and meritorious service to the profession of dentistry. Also, to promote cordial relations within the profession and help provide for the sharing and dissemination of scientific information. This philosophy has not changed as we continue to uphold these ideals throughout the many Sections of the College.

In July of this year, a new Section will be formed in China with the induction of 50 of their outstanding dentists entering the College. At present, there is a relationship between the University of the Pacific and Hangzhou University in China under which they exchange professors and students. This is an ideal example of what the College is meant to be.

It would be well for our dental schools to explore and expand relationships with foreign schools. It is through this type of media that better understandings will develop between our foreign colleagues and probably the countries as well.

In concluding my message to the U.S.A. Fellows, I wish everyone well and recommend more participation in the activities and projects of the College. My sincere appreciation to all the Fellows for their continued support of the aim and purpose of the College.

May the blessings of God be with you.

We note with sincere sorrow the death of Fellow **FRANK FITZGIBBON** at the age of 59, a practicing dentist for over 30 years. He made contributions to dentistry on many levels. His efforts on behalf of the ADA at the National, State and his district level, were accomplished efficiently with complete dedication. A few of his many activities were: Incorporator and executive Director of the Dental Service Corp. of Massachusetts, past chairman of the Valley District Dental Society, former director of the Health Care Foundation of Massachusetts, and a founding member of the committee on Drug and Alcohol Dependency of the Massachusetts Dental Society. He was a gentleman who greeted all with a friendly and warm approach. We will miss him.

On a happier note, Fellow **MURRAY GAVEL** is feeling better and is back working.

On the left, Fellow Philip Williams, former professor and chairman of post graduate prosthodontics department at Tufts School of Dental Medicine, Boston, Mass., with Fellow Murray Gavel, Past President of the College, who presented a gift to the Philip Williams Library/Seminar Room.

CONFERENCE III

Another successful Educational Conference was held in Monterey, California in June of 1985. Some eighty Fellows, families and guests attended the lectures. The lecturers were kept busy answering questions long after the formal lecture was over.

The topics were covered in detail by the lecturers. Husbands and wives enjoyed the lectures as both are invited to all sessions at each conference. Best of all, the conference was free to all I.C.D.
