STAYING FOCUSED

COMMENTARY
BY RICH GALEONE

The noted American film director, actor and comedian, Woody Allen once famously said that “just showing up is eighty percent of success.” We might say it’s obvious that if you’re not there nothing would get done. But it warranted saying anyway because it’s often difficult to show up for anything due to our busy lives. And it’s usually not just showing up once, but reporting for duty over and over again, until a commitment has been seen thru to completion. And that can mean years of commitment.

Many leaders of the USA Section made pilgrimages to South Carolina and Virginia last year to participate in an exercise of Applied Strategic Planning. On hearing that the strategic plan was a five-year plan it conjured up in me recollections of Nikita Khrushchev and his happy band of politburo members. Donning overcoats and fedoras, and just beyond pistol range, they promised a successful five-year plan every time a sparrow was spotted in Moscow. Thus, I was a little skeptical about our chances of success and personally would have felt more comfortable with a four- or a six-year plan, but it is what it is. More specifically, I was concerned about how we could maintain focus over a five-year period.

Firmly ensconced in our seats last year, the twenty-some participants at our meetings worked hard, fought for our beliefs, served on various breakout committees and then came finally to a consensus (rarely an easy exercise for dentists) for the good of the USA Section.

The process was intoxicating. We were fired up. The possibilities were exciting. This was no ordinary strategic planning meeting. Something was different. What we were going to do was determined at that meeting. Who was going to do this or that was decided. When it would be completed was settled. Our facilitator was the world renowned Dr. Robert Frazer who deftly guided us through the process. Then, incredibly, we received a letter from the future congratulating us on a job well done. Wow! Who would ever have predicted that?

We are now a little more than a year into this plan: time to evaluate our progress. What’s happening?

RICHARD J. GALEONE
EDITOR

Have we stayed focused? Well, it seems that we can claim like a man who predicts his own immortality.... so far, so good. Things we have talked about for a long time are beginning to happen.

- A production company was hired and a professional video has been produced about the mission, goals, history and accomplishments of the International College of Dentists.
- A companion Share the Honor scripted slide presentation highlighting the heritage, traditions and projects of the Section has also been created.
- Our Foundation has had its best year ever reporting that its corpus has reached an all time high.
- We will purchase our own property so that we may soon stop paying rent and start building equity.
- A new platform and website is being constructed and designed and will probably be fully operational sometime before the end of 2013. Our Section office will have better and more direct control over many functions of the new website increasing efficiency and saving costly fees to outside vendors.
- Our membership is growing as a reflection of the increase in the number of dentists in the United States but, more importantly, District membership goals have been established which will bring some lagging Districts back up to the national average.

One sees progress in every area of activity within our Section. So, yes... so far, so good. We have maintained our focus.

We must now, however, take active steps to ensure that we stay focused. We cannot sit on our laurels and let the energy we’ve recently seen wither away. That is *exactly* what happens with most strategic planning exercises. Just as in the operation of a business, the ICD will be either growing or be in decline. There is really never such thing as the status quo. –RJG

REPORT

from the REGISTRAR

2012 REPORT

Carol I. Turner, Registrar

BY CAROL TURNER

The USA Section has had another fabulous year. Our Executive Meeting was held in January in conjunction with the Southwest Dental Conference based in Dallas, Texas. We were energized because of the renewed vision of the ICD USA Section through the Applied Strategic Planning Process. Our vision is captured in a letter from the future. Our Strategic Planning Team imagined ourselves five years out from 2012 into 2017. This visionary letter helped us frame our goals, objectives and action steps for the next few years.

Our Spring Board of Regents meeting was in Savannah, Georgia. We teamed up with the American College of Dentists for a joint CE meeting after the individual board meetings, since a number of our Fellows are members of both organizations. It turned out to be a delightful, event-filled few days in a great town with a fascinating history, wonderful shops and great restaurants. So successful was the event that we are looking ahead to do the joint ACD – ICD endeavor again in 2015.

Our 2012 Fall Board of Regents Meeting and Convocation were at the lovely San Francisco Hilton in downtown San Francisco, California. What a delight it was for the Worldwide

College to join us in 2012. The College Officers took part in our convocation proceedings. The Worldwide College President, Dr. Garry Lunn, and our Section President, Dr. W. Michael Kenney welcomed 240 new Fellows. I had to chuckle when Dr. Lunn said the “convocation ran with military precision.” Most of our Convocation Committee members have military experience, and some are still on active duty. One unique change this year was that we transitioned to rented versus our owned robes. In all, the whole day went off without the slightest hitch... Another great job by the Convocation Committee.

I want to again take the opportunity to thank all the Fellows who work behind the scenes just like the Convocation Committee - the Screening Committees that review the CIFs, the Leadership Coordinators, the Counselors, those who participate in the many “White Coat” Ceremonies and local mentoring programs like “Great Expectations”, or work with the many students in the Student Exchange Programs, the Editors who do a beautiful job capturing and getting the word out about their Districts, and thank you too to the many Fellows who support the Peace Corps and new

Fisher House projects. I have to mention the hard work put in by all the Deputy Regents, Vice Regents and Regents who make your Districts run smoothly. It is all about being professional; it’s about integrity; it’s about leadership; it’s about service. Thank you for all you do behind the scenes to make the ICD USA Section so spectacular.

I was reminded during our recent 2012 Council Meeting how much impact the College has Worldwide. You can really take pride in the scope of the accomplishments the ICD is making: dental care for villages in the Philippines, Africa, India, South America and many, many more locations throughout the world; support after natural disasters like floods or earthquakes; and, of course, our ongoing recognition of leaders providing a vast array of services to the profession. As an ICD Fellow you are part of the amazing contributions of this phenomenal organization.

In Fellowship,

Carol I. Turner

Registrar, USA Section

PAST PRESIDENT'S

R E P O R T

USA
SECTION

REPORT FROM THE 2012 USA SECTION PRESIDENT OF THE ICD

W. MICHAEL KENNEY
PAST PRESIDENT

2012 USA SECTION
PRESIDENT, ICD

W. MICHAEL KENNEY

This has been an extremely energetic and productive year for the USA Section due to an excellent and engaged BOR, Vice Regents, Deputy Regents, and hundreds of Fellows, who have given so generously of their time and effort. It has been a true honor and a humbling experience for me to have served as your President in 2012.

This year was a year of reflection and planning as we looked closely at our Core Values, Mission, and Vision during the development of our comprehensive Applied Strategic Plan (ASP). We were fortunate to have Bob Frazer, a Fellow and expert in Strategic Planning, serve as our facilitator.

The ASP Process began with Retreat I in Savannah and Retreat II was held in Tyson's Corner, VA. These were very engaging sessions with our 16 member Core Team. Additional input was provided by an Organizational Health Survey of our Core Team, a Membership Survey, and Shadow Teams. The BOR approved the ASP unanimously at the BOR Meeting in San Francisco. This will provide a clear blueprint for our preferred and significant future with specific goals, objectives, and Integrated Action Plans.

Our Core Values are **Integrity, Leadership, and Service**. Our encapsulated or public Vision, which was extrapolated from our Letter from the Future (LFF), is, "**We are the preeminent honorary dental organization in the US that recognizes and promotes excellence in Leadership and Service.**" Our LFF is our internal Vision and can be viewed on our website at <http://www.usa-icd.org/private/index.htm>. Your ICD member number is required to access this area.

Our Mission Statement received overwhelming support from our Membership Survey and our Shadow Teams with a unanimous approval from the BOR. The USA Section's Mission is:

"The U.S.A. Section of the International College of Dentists, as part of the preeminent honorary dental organization in the world..."

Recognizes and promotes excellence in leadership with an emphasis on service,

Addresses oral health needs and education throughout the world, and

Fosters an atmosphere of collaboration with those who share our values."

Provides support to our Fellows and respect for our peers,

Fellows who practice in the vicinity of the Fisher Houses are encouraged to participate in this important effort.

A **Communication Initiative** was implemented to significantly upgrade all of the communication efforts for our Fellows, the profession, and the public. This effort included the approval to fund the development of a new state of the art website (see page 16), a Professional Promotional Video, and a scripted slide presentation (see page 29). Our Ad Hoc **IT Committee** is chaired by Dr. Michael Bydalek and will be proposed as a Standing Committee at the 2013 Spring BOR Meeting.

The **Professional Video** will reflect the richness, heritage, and projects of our Section to current Fellows, future candidates, the profession, and prospective Sponsors. The Big Picture was selected as our production company. I would like to thank many of our Districts and Chapters for their generous donations to this project. Dr. Margot Culotta-Norton and her very dedicated Committee deserve special thanks.

Our narrated ICD **Share the Honor scripted slide presentation** is being developed in house by Dr. Ted Roberson and our PR Specialist, Paula Rinaudo. This will be a supplement to the Professional Video and will provide a more detailed and informative view and history of the USA Section. Both will be available for distribution after the 2013 Spring BOR Meeting and will be able to be viewed on our website.

The BOR approved a list of updated duties and responsibilities for the **Deputy Registrar** (see page 14). This will be a proactive position that will coordinate PR, communications, and the effective

The **Fisher House Project** (see page 17) was inaugurated in Honolulu, Hawaii in February, 2012. Dr. Nora Harmsen deserves special kudos for chairing and developing this project. ICD Fellows will now be able to volunteer to provide emergency dental care for the families of Wounded Warriors during their stay at the Fisher Houses.

operation of committees and programs. The Deputy Registrar will assist the Section with its focus on identified goals and the execution of these goals and will be under the direction of the Section President. Dr. Ted Roberson was elected by the BOR to assume this redefined position. Dr. Van Zissi has served as our outstanding Deputy Registrar for the last 10 years, and was voted Deputy Registrar Emeritus by the BOR in San Francisco.

Our **Membership Initiative** remains an active ongoing process. Dr. Linda Himmelberger, the outgoing Regent from District 3, has served as a very committed Chair. A **Model District Award** (see page 12) has been established and will be granted to all Districts that meet its criteria. The application is available online at <http://www.usa-icd.org/information/awardees.htm> and has been emailed to all Regents. An **Exit Survey** was developed to address the issues involving any Fellowship resignations. Two variations of a **Deputy Regent's Manual** with templates that can be individualized by local Constituents were distributed to the Regents and will be available online. Protocols are being developed to engage new Fellows and encourage them to be active participants in the Section.

The **Humanitarian Liaison Sub-committee** (see page 16) of the International Collaborative Initiative (ICI) will present programs on International Volunteerism at 12 major dental meetings over the next three years. Dr. Steve Mackler serves as its very energetic Chair, and this committee includes many of the leaders in international volunteerism. The ICI was approved last year as a new Standing Committee and includes the International Student Exchange (ISE) and Global Health Student Associations sub-committees. Dr. Jeanne Nicolette, the outgoing Regent from District 7, has served as an excellent Chair of the ICI.

A **Corporate Sponsorship Program** has been developed and approved by the BOR. This is an important initiative that will assist in funding many of the Section projects. The Platinum Level is \$25,000 to \$50,000 per year; the Gold Level is \$12,000 per year with a one-time

promotion of \$30,000 for three years, and Silver Sponsorship of \$5,000 per year. The funds will be directed to the Foundation and can be earmarked for special projects.

The Convocation Ceremony was renamed the **Richard and Barbara Shaffer Convocation Ceremony** in memory of Richard Shaffer. Dick served with distinction as a RADM, Chief of the Navy Dental Corps, and Commanding Officer of the National Naval Medical Center. He served as both Registrar for the USA Section and Secretary General of the College at Large for 10 years. He was on the Convocation Committee for 25 years and served as Chair for 10 years. Dick was buried at Arlington National Cemetery with full military honors on November 16th.

I find it difficult to conclude this report without recognizing the many individuals that have given so much throughout the year and noting our many other achievements. I thank everyone for their dedication and efforts in making this a great year for the USA Section, and for the privilege and the honor of serving as your President.

I would also like to offer a special thanks to Dr. Robert Frazer for his outstanding efforts and the generous donation of his time in facilitating our ASP. I thank our staff led by Dr. Carol Turner with Mary Jo, Jennifer, and Paula for their support throughout the year. I believe we are well positioned for a very promising and significant future with a highly engaged BOR. I am very confident with our future leadership of Paul Stubbs, Curtis Johnson, and Deck Barnes.

In Fellowship,

W. Michael Kenney, DDS, MS
2012 President, USA Section
International College of Dentists

INTERNATIONAL COLLABORATIVE INITIATIVE OF THE INTERNATIONAL COLLEGE OF DENTISTS

By Jeanne Nicolette

We are now completing our first full year of the International Collaborative Initiative. The three subcommittees in the collaboration are the International Student Exchange, the Global Health Student Association, and the Humanitarian Liaison Committee. It has been an exciting project with many moving parts.

The newest part of our Initiative is the Humanitarian Liaison Committee. After receiving a significant number of responses from our online member survey, it was determined that volunteerism is a very important part of many Fellow's lives. Those who responded indicated that they were interested in opportunities both in the U.S. and abroad, and that they were also interested in the nuts and bolts of volunteering. To that end, this committee has planned a Volunteerism Seminar to be presented at the 2013 Hinman meeting, the Chicago Midwinter meeting and the Pacific Northwest Dental Conference. Sites for other presentations are to be determined. We hope to develop a group of speakers for this series. For the seminars mentioned above the speaker is Dr. Frank Serio, the Interim Vice Dean and Associate Dean for Clinical Affairs at the East Carolina University School

(Continues on page 9)

APPLIED STRATEGIC PLANNING PROCESS

OF THE INTERNATIONAL COLLEGE OF DENTISTS

This has been a year of deep reflection, creativity, and planning as we developed and adopted a very energetic and proactive five year Applied Strategic Plan (ASP). We were able to redefine our focus through an inspiring new vision expressed in a "Letter from the Future" of the best we can be, update our Mission, align our goals, and develop an ambitious business plan with concrete objectives. Our ASP provides us an excellent blueprint for our preferred future with a very positive focus on the alignment and direction of the USA Section.

This process began with the formation of a very committed Core Committee of 16 members. The Committee participated in two very productive Retreats, an Organizational Health Survey, and discussions with their Shadow Teams. Additional input was provided with a Membership Survey of a 1,000 Fellows and the review and unanimous approval of the Board of Regents (BOR). Dr. Robert Frazer, an ICD Fellow and expert on strategic planning, generously donated his time as our facilitator.

The **ASP Mission of our Section** is, "To create a future of choice for the USA Section of the International College of Dentists, its Fellows and staff. Through the Process of Applied Strategic Planning, the College and its people will achieve their highest potential in service to others, resulting in increased effectiveness, fulfillment, success, and significance."

The Organizational Health Survey as completed by the Core Committee listed 51 desired outcomes for our ASP. The top three outcomes were

to develop a definite direction and updated Mission Statement for the USA-ICD, a clear and passionate vision, and a clear differentiation of the uniqueness of the ICD from other dental honorary organizations.

During Retreat I we discussed and initiated the development of our Vision, Core Values, and Mission. The process began with identifying the future vision of the USA Section and proceeding backward in our planning to the present. This prevents dragging the obstacles of past into the future and provides a very creative environment for being the best you can be. Vision is from the heart and gives the "why" or purpose for which we exist. It gives direction, while our Core Values give the rightness of our direction.

Core Values are our guiding principles or natural laws that do not change over time. Our consensus **Core Values are Integrity, Leadership, and Service** and are our new tagline.

Mission is from the head and is our magnetic north. It answers the questions what, who, and why. Our Mission is tied together by values, especially our Core Values, and our "Why" or Vision. Our Mission Statement was extremely well received by our Shadow Teams and had the unanimous approval of our Committee and the BOR. It is listed for your reference.

"The U.S.A. Section of the International College of Dentists, as part of the preeminent honorary dental organization in the world..."

- **Recognizes and promotes excellence in leadership with an emphasis on service**

- **Provides support to our Fellows and respect for our peers,**
- **Addresses oral health needs and education throughout the world, and**
- **Fosters an atmosphere of collaboration with those who share our values."**

Retreat II addressed the development of our Strategic Business Model, our Goals, and Integrated Action Plans (IAPs) and reviewed and approved our Letter from the Future (LFF), Core Values, and Mission Statement. An environmental scan was completed with a review of the marketplace as well as economic, political, and social issues. A SWOT analysis was done as we considered our strengths, weaknesses, opportunities, and threats.

Our LFF contains our clear and passionate internal vision statement. It can be viewed on our website at <http://www.usa-icd.org/private/index.htm>. Your membership number is needed to access this site. Our encapsulated or public Vision, which was extrapolated from our LFF, is **"We are the preeminent honorary dental organization in the US that recognizes and promotes excellence in Leadership and Service."**

Goals were developed by returning from our future vision as stated in the LFF to the present reality. The ASP team identified five major areas of impact that merited specific goals. Goal Champions were appointed for each goal and are responsible for their execution and feedback. Objectives are listed under each goal and are assigned short (S), intermediate (I),

APPLIED STRATEGIC PLANNING PROCESS

(Continued from page 8)

and long term (L). Objectives are also rated on their level of importance in assisting the goal to support our vision as most important (A), important (B), and less important (C). The five goals are listed below in order of importance:

USA SECTION GOALS:

1. We are the preeminent honorary dental organization in the USA.
2. We are the foremost source for dental leadership and recognition.
3. We are the model for domestic and international dental service and collaboration.
4. We have state-of-the-art internal and external communication to support our projects and activities.
5. We enjoy a secure financial position which allows us to achieve our strategic objectives.

The key to a successful ASP lies in its execution and the proper use of Integrated Action Plans (IAPs). Each objective has an IAP which delineates the action steps, the **What** of the plan, necessary to achieve the objective. Our IAP spread sheet also includes **Who** is going to execute the action, the **Resources**, the **System** or time divisions, the **beginning date**, and a **Monitor**. The quarterly updating of all IAPs is the lynch pin for successful implementation of the ASP.

Our Goal Champions and Committee Chairs and many of our Fellows are fully engaged in the development and execution of our objectives with IAPs. This involves many exciting and energetic projects that reflect the outstanding leadership and service provided by the ICD and many of our Fellows. An example of one of our key

objectives under our highest priority Goal I is to: **"Establish branding in all ICD activities/projects by the fall meeting 2013."** A branding letter has been sent to our leadership discussing the importance and implementation of this objective with specific recommendations and protocols.

The USA Section and the ICD have a great story to tell, and this will become even more compelling as we execute our blueprint for the future as directed by our ASP. It is important that we share this story with our Fellows, the profession, and the public. This sharing with our branding will reinforce the value of Fellowship for current Fellows and increase the desire for excellent candidates to aspire to Fellowship. It will also provide sponsors with incentives to support our many outstanding leadership and humanitarian projects.

I would like to thank our Core Committee, the BOR, our Shadow Teams, our staff, and the many Fellows that have worked so hard throughout the year. I would also like to acknowledge the generous commitment of Dr. Robert Frazer, who served as our outstanding facilitator. This year of deep reflection and the development of our ASP has provided great energy and focus for the Section. I believe we are well positioned for a very promising and significant future and encourage all Fellows to be active participants in making the USA Section the best it can be.

**W. Michael Kenney,
DDS, MS**

*Chair, ASP Committee
2012 President,
USA Section*

INTERNATIONAL COLLABORATIVE INITIATIVE

(Continued from page 7)

of Dental Medicine. Dr. Serio has been actively involved in Dentistry Overseas, a joint project between the ADA and the Health Volunteers Overseas and many other international volunteer dental activities spanning over 30 years.

This past year our student exchange program concentrated on working with dental schools that have previously participated with us. The reciprocal exchanges are set up between two participating dental schools, with students selected from within those schools. Our program currently helps two students from each of the participating U.S. schools and two from each international exchange school. We hope to expand the program over the next several years, and we are actively looking for greater funding and more schools who are interested in participating.

Finally, we have our Global Health Student Associations (GHSAs). We encourage dental schools to establish these programs for the benefit of the many dental students who are interested in knowing more about raising money for and participating in exchange programs and to teach students about oral health care worldwide, the unmet needs for patient care, opportunities for travel to foreign lands to provide preventive education and clinical treatment and to prepare students for professional leadership in the community of nations. For more information about participation in this initiative, please visit the ICD, USA Section website at www.usa-icd.org or contact the Section Office at (301) 251-8861.

Welcome

Meet Our New...

President, President-Elect,
Vice President and
Deputy Registrar

TO THE INTERNATIONAL COLLEGE OF DENTISTS

PAUL E. STUBBS
PRESIDENT

ICD-USA SECTION PRESIDENT

Paul E. Stubbs

Dr. Paul E. Stubbs of Austin, Texas, was installed President of the ICD-USA Section at the 2012 Convocation Dinner this past October in San Francisco. He previously served the Section as District 15 Regent, and was elected by the Board of Regents to the USA Section Executive Committee in 2010.

Dr. Stubbs graduated in 1961 from McMurry College, Abilene, TX, with a Bachelor of Arts degree in Biology. In 1963, he received a Masters Degree in Physiology from Wayne State University, College of Medicine, in Detroit, after which he was employed in the Research and Development Division of Smith-Kline & French Laboratories in Philadelphia. From 1964 until 1966, he held the position of Instructor in the Biology Department at McMurry College, Abilene, Texas.

In 1970, Paul graduated from Baylor College of Dentistry. During his years

in dental school, he was a member and President of Psi Omega Dental Fraternity and he represented Baylor at the 1969 ADA meeting with a student table clinic. Following graduation, Paul and family made Austin, TX, their home and dental practice location.

Paul has remained active in the Austin community, having served on the board and as treasurer of Extend-A-Care, Inc., a charitable organization for after school enrichment; as a member of the Admirals Club of Austin and patron member of the Bachelors Club of Austin; as member of the advisory board of AIDS Services of Austin; and as Elder of the Westminster Presbyterian Church. He has also been a dentist volunteer at Austin's Manos de Cristo Dental Clinic, as well as participating in various dental mission trips to Mexico, Haiti and Nicaragua.

In his profession, Dr. Stubbs served as President of the Austin District Dental Society and was the District's nominee for Texas Dentist of the Year in 1981 and 1991. He has been a Texas Dental Association delegate and ADA delegate, chairman of Baylor's Century Club, Fellow of American College of Dentists, member of Pierre-Fauchard Academy, and served as member and chairman of the ADA Council

on Access, Prevention and Interprofessional Relations. Following a four-year tenure on the Board of Directors of the Texas Dental Association, he was elected President and served 1990-1991. Paul was later appointed by the Governor of Texas to the State Board of Dental Examiners and became involved with the Western Region Examining Board (WREB). He was elected to the executive committee of WREB and served as its President in 2008. He continues to serve as a WREB Chief Examiner for both dental and dental hygiene board examinations. Additionally, Dr. Stubbs served the ADA Joint Commission on Dental Examinations as member of test construction committees on Anatomy, Microbiology-Pathology, and Testlet, and he currently serves as Consultant/Test Reviewer.

Paul enjoys fishing, hunting, traveling and remains, in spite of a few critical mishaps, an avid cyclist. "Being with my family is one of my greatest pleasures".....and he still makes time to enjoy life and maintain a sense of humor.

PRESIDENT ELECT Curtis Johnson

Curtis R. Johnson of Scotland, South Dakota was elected to the office of Vice President of the USA Section of the International College of Dentists at their annual meeting in Las Vegas in October of 2011. Curtis was born in Sioux Falls, SD in 1946, graduated from Washington High School in 1964, Augustana College in 1968, and Northwestern University Dental School in 1972. He opened a practice in Scotland, SD and has practiced there for 40 years.

Dr. Johnson has a distinguished history of professional and community involvement. He served as President of his State Dental District in 1982 and President of the South Dakota Dental Association in 1993. He was the recipient of many honors from his state dental association including the Distinguished Service Award in 1998 and the Outstanding Service Award, Donated Dental Services in 2007. He also served on Governor George Mickelson's Rural Health Care Advisory Committee in 1990, and Governor William Janklow's Task Force on Managed Care in 1995.

Curtis is a member of the National Advisory Committee for the Samuel D. Harris National Museum of Dentistry. From 1996 – 2003 he was a Delegate to the ADA, and was a member of the ADA Council on Government Affairs. In this regard he served on the site visit team to the Dental Services Branch of the Billings Area Indian Health Service, and later participated as a volunteer dentist at the invitation of the Indian Health Service in St Michael, Alaska, to experience the unique service and access challenges in remote Alaska villages. In addition to his fellowship in the ICD he is honored to be a Fellow of the American College of Dentists and the Pierre Fauchard Academy.

Dr. Johnson has also found time to serve on the Scotland, SD, Board of Education, on the Scotland, SD, City Council, to serve as a Trustee, as well as Chairman, of the Board of the Landmann-Jungman Memorial Hospital, and Chairman of the Scot-Del Development Corporation.

Curtis married Margo Cardin in 1968 and they celebrated 44 years of marriage on June 22. They have "two sons and the two

CURTIS R. JOHNSON
PRESIDENT ELECT

most beautiful, intelligent granddaughters God ever created!" Margo and he love to travel, spend time relaxing at the lake and socializing. But their greatest joy is spending time with the kids and grandkids...whenever and wherever.

Dr. Johnson considers it a great privilege and honor to assume this position of leadership within the College. He says, "With great humility, I will strive to the very best of my ability to cooperatively move the USA Section forward and upward to an even greater degree of service and honor."

DEXTER E. BARNES
VICE PRESIDENT

OUR NEW VICE PRESIDENT Dexter E. Barnes

Dexter E. Barnes of Seattle, Washington was elected to the office of Vice President of the U.S.A. Section of the International College of Dentists at their annual meeting in San Francisco in October of 2012. Dexter was born in Seattle and moved to Eugene Oregon for his junior and senior high school years, graduating from North Eugene High School. He then returned to Seattle where he completed his undergraduate education (B.S. in Zoology in 1965) and his dental education (DDS in 1969) at the University of Washington. He has practiced general dentistry in Seattle for over 40 years.

Dr. Barnes has been active in professional and community services since graduation. He has served as President of the University of Washington Dental Alumni Association five years after his graduation and has chaired the Annual Dental Alumni Association Dean Ernest M. Jones Lectureship since 1976. He was selected as Distinguished Alumnus in 1998. He has served through the officer positions of the Washington State Dental Association including President in 2007-2008 and was an ADA delegate from 2003-2008. He has continued his involvement with the WSDA through serving on the Board and as an officer of the Washington Oral Health Foundation for the past four years and with the Dental Alumni Association as the class representative every year since he graduated.

His community activities have included Cub Scout master, Parent Advisory Board

for Kings School, Church Board and Board President and Pastor Nominating Committee Chair as well as serving on the Boards of two small Christian outreach ministries, one for 30 years.

Dexter met his wife MaryAnn while both were undergraduate students at the University of Washington and they were married after his sophomore year of dental school in 1967. They have 4 grown children, three sons and one daughter and 8 fabulous grandchildren ranging in ages from 3–13.

Dr. Barnes was extended Fellowship in the I.C.D. in 1995 and considers it one of the greatest honors of his career. He and MaryAnn have wonderful friends around the country as a result of attending many I.C.D. events. He considers it a distinct honor and privilege to be chosen to serve as an officer in this great organization and he looks forward to being a part of implementing our Strategic Action Plan.

THEODORE M. ROBERSON
DEPUTY REGISTRAR

NEW DEPUTY REGISTRAR

Ted Roberson

Theodore (Ted) Roberson of Durham, North Carolina was elected Deputy Registrar of the ICD USA Section at the annual meeting in San Francisco this last October. Ted was President of the ICD USA Section in 2010.

Ted served on the faculty of the University of North Carolina School of Dentistry for thirty-seven years. As a UNC School of Dentistry faculty member, he served as Chairman of the Department of Operative Dentistry, Director of Admissions, Director of Student Affairs, Director of Alumni and Professional Relations and the Executive Director of the UNC Dental Alumni Association. He also received numerous student appreciation awards as well as the highest teaching award, the Richard F. Hunt Teaching Excellence Award, twice.

He was the Senior Editor and primary author of the Fourth and Fifth Editions of *Sturdevant's Art and Science of Operative Dentistry*, the leading selling dental textbook in the world. He is the recipient of numerous awards including the Distinguished Service Award of the North Carolina Dental Society, the Dental Foundation of North Carolina, and the UNC Dental Alumni Association. He is a Fellow of the International College of Dentists, the American College of Dentists, and the Academy of General Dentistry.

Ted has served in leadership positions for the North Carolina Dental Society, the American Dental Association, the American Dental Education Association, and the International College of Dentists. For many years he was a Delegate to the ADA and was Vice-Chair of the ADA CAPIR Council. Currently, he serves as the NCDS Ambassador, promoting the NCDS and membership on organized dentistry.

Ted has compelling feelings about the ICD Fellowship. "The ICD," he says, "is an organization of accomplished men and women. They are recognized for their roles in society and the profession. Once the novelty of an awarded fellowship wanes, the ICD must inspire the member to be not only proud but also become strong proponents of the organization. For this to occur, the ICD must be credible and meaningful. It must stand for professional values or goals that Fellowship support. It must also be visionary, projecting activities that instill in its Fellows pride, ownership, and inspiration. The ICD must be viable and provide worth to the member and the profession."

He also has concerns about the future of the ICD and feels that "we must maintain an energetic leadership which continually reassesses why and what we are doing and then make any necessary changes. We must become rapidly communicative with our membership. In this way we will engage and harness the energy of new leaders to make the ICD more relevant and beneficial."

Dr. Roberson is a 1968 graduate of the UNC School of Dentistry and three of his four children, Tiffany, Tara, and Deuce, and one son-in-law, Scott Vines, are also graduates of the dental school. Three of them are ICD Fellows. His other daughter, Kim, has a Masters degree in a non-dental topic, but is the Membership Coordinator of the North Carolina Dental Society. He and his wife Brenda spend a lot of time enjoying their ten grandchildren.

BOARD OF REGENTS ESTABLISHES MODEL DISTRICT AWARD

The Board of Regents of the ICD USA Section voted at their meeting on **October 18, 2012 to establish a Model District Award to recognize Districts whose commitment to Leadership, Integrity and Service is exemplary, as measured against established criteria. These awards are meant to provide a yardstick against which each District can assess its membership, programs and communication and set tangible goals to help improve their outreach to their Fellows, to dental students, the profession and the community.**

Districts may voluntarily apply for recognition by completing a Model District Award application, available from the District Regent or online at www.usa-icd.org, and submitting it to the Membership Committee of the USA Section. The deadline for the 2014 applications is March 14, 2014. The Membership Committee will review each application against pre-established standards and determine if the District meets the minimum requirements in all areas. Districts that met the standards for 2013 will be designated as Model Districts and recognized at the Annual Meeting and Convocation in October in New Orleans, Louisiana. The Model District designation is valid for three years; to continue the recognition, the District must re-apply. Districts which applied for the Model District Award for 2013 had to meet or exceed the Standards established in each of three areas as noted on the following page:

(Continues on page 13)

AREAS AND STANDARDS

AREA 1: MEMBERSHIP

Standard: The district will:

- a. Have a membership committee (or equivalent) to identify dentists in positions of leadership within the District for possible Fellowship nomination.
- b. Annually nominate qualified dentists for Fellowship over the most recent three years at an average minimum rate of 6 nominations for every 100 Fellows in the District (6% average nomination rate over the last three years). First-time or previously unsuccessful submissions can use either the number of nominations in the most recent year or the average number of nominations over the most recent three years to meet the 6% membership standard, whichever is most favorable.

AREA 2: DISTRICT PROJECTS

Standard: The District will have at least one project that:

- a. Directly promotes the mission of the College
- b. Is primarily administered and financed by the District
- c. Recurs annually in substantially the same format

Examples of such projects could include:

- a. Sponsoring a humanitarian outreach or leadership project
- b. Supporting dental school leadership or humanitarian projects
- c. Developing and conducting a mentoring program for upper class dental students or new dentists

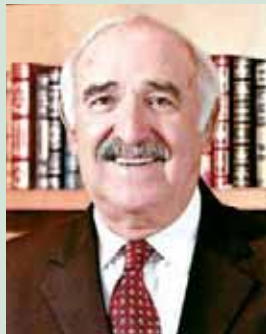

AREA 3: COMMITMENT AND COMMUNICATION

Standard: The District will:

- a. Have a District newsletter (electronic or printed) or alternately, regularly send letters, notices or email messages to all of its members
- b. Be compliant with requirements and requests for reports and information from the Section Office
- c. Recognize newly inducted Fellows in a timely fashion

The Board of Regents is excited about this new initiative and encourages each District to carefully and thoughtfully review the criteria and submit an application if you meet the standards.

Fax the completed application to (240) 499-8975 or mail it to International College of Dentists USA Section, 51 Monroe Street, Suite 1400, Rockville, MD 20850. Please call Mary Jo Webster at (301) 251-8861 or email her at maryjo@usa-icd.org for more information.

LEON ARONSON
PRESIDENT, COLLEGE-AT-LARGE

Leon Aronson of Savannah, Georgia has assumed the mantle of President of the worldwide International College of Dentists. He was President of the USA Section in 2006.

Leon is the recipient of many leadership awards from Emory University, Saint Louis University and the Georgia Dental Association. Besides being active as a past president of our Section he is the originator of the very effective Leadership Initiative which continues to enjoy success for

PRESIDENT OF COLLEGE Leon Aronson

the USA Section. He was also Chair of the College at Large Committee on Constitution and Bylaws.

Dr. Aronson was very involved with the separation of the College at Large from the USA Section and in locating an independent office for the CAL. Leon states that, "This separation was long overdue and marks a milestone in the history of the International College of Dentists. It was the right thing to do as we can already see improvements in the management of our finances and the new-found energy in our Growth and Development efforts..... I see a bright future for the International College of Dentists, and I am most happy and proud to be a part of it."

JOSEPH KENNEALLY
VICE PRESIDENT, COLLEGE-AT-LARGE

Joseph Kenneally of Biddeford, Maine is the 2013 Vice President of the worldwide International College of Dentists. He will serve as the organization's President in 2015.

Dr. Kenneally is the recipient of many awards from the American Dental Association, the Maine Dental Association, the Yankee Dental Congress, and the University of New England. He is presently the Regent of District 1 and has been very active with the New England Chapter. For many years he was Chairman of the Information Technology Committees of both the Section and the College at Large. He is a past president of the Maine Dental Association and a past vice president of the ADA. He is a recipient of the James E. Etherington Award for lifetime

COLLEGE VICE PRESIDENT Joe Kenneally

service to the dental profession in New England and a recipient of the ICD Distinguished Deputy Regent Award.

Joe is most proud of his achievements with projects that improved public health and access to care in the state of Maine. He began a successful drive to fluoridate the community water supply of Biddeford-Saco, Maine and served on a committee chaired by his wife, Dr. Lisa Howard to do the same thing for Kennebunk, Kennebunkport and Wells, Maine. In the late nineties, he was instrumental in creating liaisons with the National Foundation of Dentistry for the Handicapped which led to Maine's establishing its Donated Dental Services program. In 2009, he formed a coalition that led to the building of a new facility for a non-profit dental clinic in Biddeford which houses the community's Dental Wellness Center. He is a trustee of the University of New England and is proud that he will be a Founding Trustee of its new College of Dental Medicine this coming year.

USA SECTION DEPUTY REGISTRAR NEW ROLE AND RESPONSIBILITIES

After discussion in the Executive Committee (EC), the 2011 Board of Regents (BOR) in Las Vegas was asked to consider the issue of whether or not there should be a position on the Board to coordinate Public Relations and Communication. After further review at the EC and the BOR, it was decided to appoint an *ad hoc* committee to further assess this issue. That committee expanded the potential role because they thought there was a critical need for an individual on the Board who would have oversight of the organization's programmatic activities and assure that collaboration and communication are taking place among the various committees, as well as with our Fellows and other constituencies.

It was decided that these new responsibilities would be placed in the Section's Deputy Registrar position, which previously had no defined role. A list of specific duties and responsibilities was developed and the new Deputy Registrar position was approved by the Board of Regents at its October, 2012 meeting in San Francisco.

While there are certainly elements of the original description of a communications/technology liaison, this Board position would have a broader focus. The position will be one of prominence within the USA ICD governance. While the overall results of this position will be to increase and enhance PR and communication, the Deputy Registrar's primary responsibility will be to keep the Section focused on its identified tasks and make sure that all the Section groups are dedicated to accomplishing those tasks.

The rationale for the expansion of the Deputy Registrar role is that the Section needs someone to keep its activities and plans cohesive, communicative, cooperative and current. The President and Registrar have minimal time to

consistently coordinate all of the various activities of the Section due to their other expectations and responsibilities. Therefore someone needs to assist with those goals. Just as the Registrar directs the Section's administration, the President directs the Section's governance, the Deputy Registrar directs the Section's programs and activities. The Deputy Registrar keeps all of the Section activities and plans on task and ensures all the Section entities work together... obviously in constant communication and coordination with the President and Registrar.

The Deputy Registrar serves on the Executive Committee and the Board of Regents, necessary prerequisites for this position to be successful. It is important that the person in this position have the opportunity to participate in any and all discussions regarding the plans and programs of the organization in order to be familiar with all of the activities of the Section. In addition to being an integral member of the EC and BOR, this position would work closely with all committees and especially the Section President, Editor, PR Specialist and Registrar. This position would work under the direction of the President.

The new responsibilities of the Deputy Registrar are outlined below:

- To possess an overall knowledge of the USA ICD Section's plans, programs, and activities
- To possess an overall knowledge of the USA ICD Section's governance entities and each of their objectives (i.e. the mission of the organization, the strategic plan of the organization, and the objectives of each committee or task force.)
- To integrate and, when necessary, direct the Section activities within all the various entities of the organization,

(i.e. making sure the various committees are aware of each other's activities and efforts as well as keeping them on task and in compliance with the strategic plan.)

- To oversee the creation and dissemination of USA ICD information, including, but not limited to publications/webpage/brochures/announcements/committee or taskforce reports/press releases/social media/chat pages/blogs/membership surveys
- To USA organizational entities: committees/task forces/BOR/EC/states and state officers/individual Fellows
- To other professional organizations: ADA/ACD/Specialty groups/AGD/etc.
- To local and national news organizations
- To prepare appropriate information and reports about the status of the USA Section
- To serve as a Communications Liaison to the ICD-USA Foundation
- To recommend and oversee technological innovations and upgrades such as Skype, Televox, and enhanced cyber-security.

In order to successfully execute these responsibilities, it will be necessary for the Deputy Registrar to establish a strong working relationship with the Registrar and the President and to communicate effectively with the Editor and the PR Specialist to make sure all of the appropriate Section information is being relayed to our various constituencies in a timely manner.

As described elsewhere in this publication, Dr. Ted Roberson, USA Section President in 2010 was elected as the Deputy Registrar, effective for 2013 and 2014. He succeeds Dr. Van Zissi, USA President in 2005, who served with distinction as Deputy Registrar for seven years and has been designated, Deputy Registrar Emeritus.

President Mike Kenney presenting Distinguished Deputy Regent Award to John Kriz of Idaho.

John Kriz Distinguished Deputy Regent

Dr. John Kriz of Idaho was named the Distinguished Deputy Regent of the Year at the USA Section's annual meeting in San Francisco. Dr Kriz has brought the Idaho ICD to life. Prior to his

being Deputy Regent there were very few new candidates for fellowship from Idaho and now there are seven or eight a year.

John is the ideal ICD fellow participating in many community and dental organization activities. He is a Co-Founder and Board Member of the Idaho Oral Health Foundation; a dental provider for over 100 intellectually challenged Treasure Valley residents for 30 years; Founder of the Dental Access Program for seniors-economically challenged; a Trainer and Consultant for International Special Olympics and Idaho Special Olympics – Special Smiles Program; was an Associate Professor of Pharmacy at Idaho State University from 1974–1984; a Past President of the Idaho State Dental Association; an Instructor in Radiology for Baylor College of Dentistry; a Mentor-Monitor for local practitioners in the Idaho State Dental Association Substance Abuse Program; and many other activities just too numerous to mention.

He is married to his wife, Carol who is a Family Practice Therapist and has three sons and a daughter, one who works for Costco, one who is in construction, one who is a doctor of Pediatric Psychology at Oregon at the Health Sciences Center, and his daughter who is a Family Practice Therapist like her mom.

John Kriz with Idaho's two Smile of Excellence award winners. Megan Kobrik, who was a senior in high school for 1,000 hours of hospital service, and Glenda Weaver who is Founder of the Grand Parent Raising Grandchildren program for Idaho.

Vangel R. Zissi

Deputy Registrar Van Zissi Retires

After many years of dedicated service to the ICD Van Zissi of Massachusetts has

retired from his position as Deputy Registrar of the USA Section.

Van has been a Fellow of the ICD for 42 years and has been very active since 1985 when he served as the Deputy Regent of District 1 or New England. After that he successively served as Vice Regent and Regent of District 1, and was elected Vice President, President Elect and President of the Section. He then agreed to serve as Deputy Registrar of the Section starting in 2006 and Deputy Secretary General of the College at Large. He has also chaired and served on several committees of both the Section and the College at Large.

His personal ICD goal has been to push forward with the ICD Leadership Initiative to encourage the vast pool of youthful talent to contribute their skills, abilities and unique perspectives to bring 21st century innovations to the ICD. His special interest in dentistry is in academics: he is not only a Clinical Professor of Post Graduate Endodontics at Tufts University School of Dental Medicine, but also the Director of Tufts Division of Continuing Education.

Of the many honors and awards Van has received over the years he considers his top three having received the Distinguished Service Award from Tufts University in 2008, the Distinguished Service Award from District 1 of the ICD in 2009, and becoming a Diplomate of the American Board of Endodontics in 1970.

He has always cherished his interactions with his two sons, his sister and her three sons, and, as a lacrosse "junkie," he is proud of being the dentist of the Tufts University varsity team. Some of his happiest times are traveling with his wife, Barbara.

Van's wisdom, energy, sincerity, guidance, good humor and counsel will be sorely missed at our future meetings. We wish him continued good health, great happiness and fulfillment for many years to come.

HUMANITARIAN LIAISON COMMITTEE (HLC)

Dr. Stephen B. Mackler
Chair, HLC

When the Humanitarian Liaison Committee met to discuss goals for the 2012 year, the committee members agreed that before they could move forward on any humanitarian projects there must be some confirmation that Fellows still, in fact, are interested in volunteer opportunities. The last survey was taken in the early 2000's. To capture this information, a survey of twelve questions was created to target volunteer interest. The survey was emailed to the Fellowship in February. There were 764 respondents to the survey.

These results confirm our Fellowship still has a strong interest in volunteer efforts. The three areas that are most evident from the survey results are:

- 1) **Volunteer Opportunities** – *The results of this survey indicated that 54% (414) of the 764 respondents are interested in hearing more about volunteer opportunities through the ICD.*
- 2) **Currently Volunteering** - *Not surprising, but of these 414 respondents 170 (41%) currently volunteer through various organizations.*
- 3) **International Volunteer Seminars** – *Of this same group, 343 (83%) indicate a strong interest in attending a seminar that would give detailed information about volunteering in other countries as well as within the US.*

The HLC is determined to find ways to link our Fellows with volunteer opportunities, and is in the process of collaborating with the American Dental Association's International Dental Volunteer staff regarding their list of volunteer opportunities. The current plan is to place a link on our website that will take our Fellows directly to the ADA's International Dental Volunteer webpage to view viable opportunities that have been approved by the ADA. This link should be available on our website by the spring of 2013. [Editor's Note: This link is in place. See below for address.]

The HLC also has identified several of our ICD Fellows who are seasoned Dental Volunteers with many years of experience. The new International Volunteer Seminar series has been developed to inform attendees of the many reasons why we volunteer, what it takes to be a volunteer, what to expect as a volunteer, and the different types of volunteer opportunities available. The 2013 seminars will be held at dental meetings in Chicago, IL in February; Atlanta, GA in March; and Bellevue, WA in June. Please look for the title "**International Volunteer Dental Projects: What's It All About?**" when registering. *There is no additional registration fee to attend these seminars.* The HLC is very excited that Dr. Francis G. Serio has agreed to lead this first series of seminars. Dr. Serio has been a volunteer for more than 30 years. He has a wealth of knowledge to share on being a dental volunteer. His experiences will make for a most informative and interactive presentation on volunteering. The registration response has been tremendous for these seminars. For more information on the ADA link mentioned above and the Volunteer Seminars please go online to www.usa-icd.org/projects/HLC_projects.htm.

If there are any volunteer projects that you would like us to post on our website, please email the information to office@usa-icd.org.

SECTION GETTING NEW WEB SITE

The saying goes, "Good things take time, like a fine wine". Well that holds true for the late 2013 release of the **fully revamped, fully redesigned new USA-ICD website (usa-icd.org)**. The seeds for change were planted back in 2010. Through hard work and tremendous dedication by many participants, the actual "going live" is coming soon.

What people may not know about the site, besides what will be an obvious esthetic/layout change, are the **tremendous advancements** lying underneath the external appearance. The site will fall much more under our own control; both from a management stand point and membership perspective. It lends itself to being a far more interactive site than we have ever seen before. Time has slowly moved along with these advancements because technology is constantly changing course and the website is designed to "go with the flow". Instead of the site being limited **by** static technology, it will be dynamically morphing **with** technology.

The site will create a more two-way street between our members, the organization and what we do collaboratively. The format will be more user friendly and more updatable. We look forward to the new site's "launch" later this year. Be ready to re-introduce yourself to the website and bookmark the address!

THE FISHER HOUSE PROJECT

The Fisher House project kicked off last February 2012 in Hawaii; and throughout this year, we have been slowly working our way across the United States to encourage ICD Fellows to support this most worthy project. The Fisher House is much like a Ronald McDonald House, which serves the families of those in the hospital. With the Fisher House, the patients are in a military hospital and the Fisher House provides a free place to stay that is close to their loved ones. As can be imagined, there is stress associated with patients having to worry about their family member and then experiencing their own emergency, perhaps a toothache or a broken filling. With the ICD project, this is one stress that is relieved by our volunteer dentists. The Fisher House manager contacts a volunteer dentist and services are provided in the dentist's office free of charge.

In Hawaii, **Ed Cassella**, our Deputy Regent, provided above and beyond care for a patient to be cleared for knee replacement surgery. He provided a thorough periodontal examination with scaling and root planing as needed and cleared the patient for the much needed surgery.

Larry Fujioka, also a Hawaii dentist, provided a family member with a temporary anterior crown to give the patient back a smile and allow her to return to her home in Guam.

In Colorado, **Michael Scheidt** has provided a list of dentists for Fisher House; and, although they have not yet had emergency care, he went to visit the house in Denver and presented them with a gift basket of dental care supplies. I am sure these supplies are welcome, when a family is far from home and just needs a simple thing like a toothbrush and toothpaste.

A phone call came in from the Fisher House in St. Louis. After a few phone calls to the membership, **Arnie Jacobson** came to the rescue and went back into his office on his day off to place a temporary filling and refer the patient to an oral surgeon in her home town. The patient was very grateful for the kind treatment by our Fellow.

Pictured above: Dr. Michael J. Scheidt visited the Denver Fisher House in support of the ICD-Fisher House initiative. He donated dental hygiene items to the twelve room home and had a tour of the facility with the local program manager, Joy Weyna-King.

These are just a few examples of how we are helping the Fisher House patients. There are still many states that are not yet up and running, but we hope that those Fellows, who would like to help out, will contact their District officers and join in this wonderful project. Check out our website and find out more information or contact your Regent or Deputy Regent to work with the Fisher House in your state. To see if your state has a Fisher House, check out their web site at Fisherhouse.org.

Ted Roberson, our Deputy Registrar, can also be contacted for information and will be following up to see that this wonderful project is continuing to grow across the United States. Ted can be reached at Troberson7@nc.rr.com. Thanks to all of the Fellows who are working hard to make this a success.

Paula Rinaudo

Paula Rinaudo Appointed Director Of "Wow"

The USA Section's Public Relations Specialist, Paula Rinaudo has been named the Section's Director of "Wow." The decision to establish such a position came from the Applied Strategic Planning sessions held in 2012.

The Director is an individual who can identify, articulate and assist in implementing those components that would bring the "Wow" to the organization. Such a person should be highly discriminating, very observant and understand the subtleties that add value, demonstrate Wow in their professional life, personal life, have high emotional intelligence, be an excellent listener and communicator, have an excellent concept of customer service and attention to detail, and is tuned in to the desires of the membership.

In the specific case of our Section the Director of Wow will help improve communication and contact with our Fellows, create a sense of value of Fellowship, help improve the professional look of publications, letters and correspondence, generate positive messaging including written, e-mails and web content, continuously improve presentations, communications, office appearance, on site appearance, and ensure that our core values are reflected in all we do.

ICD SPONSORS WHITE COAT CEREMONIES

The ICD White Coat message has now been presented in dental schools across the country for over ten years. The ceremony in which dental and hygiene students receive the white jackets or coats is symbolic of the transition of the student from didactic studies into the clinical responsibility of treatment of patients. The ICD message explains how the relationship and establishment of leadership and professionalism will directly affect and benefit the student during their structured academic years as well as in the years after graduation.

Specifically, the message charges the students to be skilled, honest, moral and ethical in their treatment of patients. "We are truly a profession", it says, "and not a trade, thanks to the leadership of dedicated professors who teach the didactic and clinical skills; to the forward thinking researchers who bring us new and cutting edge materials and techniques; and to our Dental Organizations which bind us together and allow us to speak with united positions for the delivery of the best dental care in the world. It will always be necessary," the students are told, "to uphold and continue to enhance our profession through a lifetime of constant learning and for them to have a strong sense of commitment to excellence, because the torch of leadership will ultimately be passed to them."

Dr. Gerrit Hagman of Georgia created this project in 2002 and for years flew all over the country delivering his presentation. It has become one of the most successful of our activities and there is now international interest in establishing similar programs in dental schools around the globe.

The Hygiene Students of Clayton University in Georgia are proud to be entering the world of clinical care.

HAROLD SLAVKIN CONVOCATION ADDRESS

SAN FRANCISCO HILTON HOTEL • OCTOBER 19, 2012

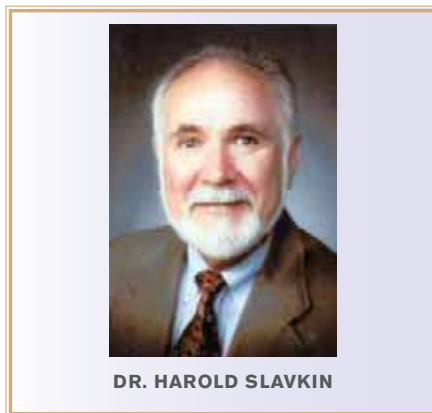

“IT IS A SPECIAL HONOR TO BE WITH YOU AT THIS CONVOCATION OF THE INTERNATIONAL COLLEGE OF DENTISTS HERE IT SAN FRANCISCO...”

I am grateful for this opportunity to congratulate each of you on your outstanding contributions to our profession—Congratulations!

As you heard in the very kind introduction by President Michael Kenney, I served as the sixth Director of the National Institute for Dental Research (NIDR) at the National Institutes of Health in Bethesda, Maryland. I served from July 1995 thru June 2000. At a reception hosted by Secretary Donna Shalala at Constitution Hall late in 1995, I met the legendary Walter Cronkite. After introductions, I began to talk fast and described to Mr. Cronkite his enormous attributes and how our nation reveres all that he stands for. I rapidly highlighted his role when President John Kennedy was assassinated and how he broke the news to the nation. At this point, I needed to pause and take a breath. He graciously leaned forward and slowly asked, “And what do you do, Dr. Slavkin?”

“I’m a dentist from Los Angeles, and...” Before I could finish my sentence, he placed both of his hands on either side of my face, leaned forward, and quietly spoke. “I wanted to be a dentist more than anything in the world. My grandfather was a dentist and my father was a dentist. Dentistry is a wonderful profession! Unfortunately, we had little money during the Depression and I took a job on our town newspaper.” We then spoke for almost an hour, very unusual at Washington social gatherings of over one-thousand people in a large space. He explored what I would like to achieve while at the NIH. It was magical!

The next morning, Secretary Donna Shalala called me at my office. “So, Hal, Walter called me last night and asked if we have ever had a Surgeons General Report on the oral health of the American people. My staff checked and we have not. So, Hal, would you and your leadership at the NIDR take the lead agency role and produce a comprehensive report, evidence-based, that

traces oral health across the lifespan, with an emphasis upon prevention that works?”

“Madam Secretary, I would love to accept your charge.” Four years later, May 2000, Surgeon General Davidatcher released the Report, a Report inspired by Walter Cronkite and led and championed by my Deputy Director Dushanka Kleinman and Dr. Casswell Evans who we recruited from Los Angeles.

This afternoon, I invite each of us to reflect on three questions: (1) “Where did we come from?” (2) “Where are we?” and (3) “Where are we going?” It is now “fact” that we parted ways with chimpanzees 6.6 million years ago. At that time and until the beginning of the 20-century, global life expectancy was 30, and in North America, it had reached 47. By 1900, the world population was 1 billion. The most common cause of death was acute microbial infection associated with childbirth, infancy and childhood.

And, in 1900, the majority of health professional schools (medicine, dentistry, nursing, pharmacy and public health) were proprietary (private and for profit) and significantly influenced by commercial factors. From that environment which was replete with conflicts of interests, the Carnegie and Rockefeller Foundations, out of New York, commissioned a series of reports, the exemplars being the Flexner Report for North American medical education in 1910, and the Gies Report for North American dental education of 1926. There were also comparable reports

for nursing, pharmacy, and public health professional education. Remember, life expectancy at that time was 47 years of age, dental schools were generally not associated with universities, nor were they “scientific.” Being toothless was considered normal for mature adults.

Within this environment, leaders from our profession came together on December 31st 1927, New Year’s Eve, in Chicago, Illinois, and the International College of Dentists was officially created as a joint concept between an American, Louis Ottofy, and a Japanese, Tsurukichi Okumura. There were 250 dental professionals accepted as Fellows from 162 different countries. The stated criteria for Fellowship read as follows: “Please nominate the ablest, most progressive, best educated, ethical practitioner in your country, regardless of his place of domicile, nationality, race, color or religion.” Importantly, seven years earlier, August 20th 1920, at the Copley Plaza Hotel in Boston, a similar group of dental professionals were also seeking a more ethical and professional health profession. They created the American College of Dentists. The Gies Report was published in 1926 and the “1920s Era” gave birth to the creation of dentistry as a science-based, evidence-oriented profession, to be aligned with universities and the highest ideals of ethics and academic rigor. Through education, informal meetings, letters, journals (the Journal of Dental Research, the Journal of Dental Education, and Journals of the American and various International Dental Associations), as well as annual national, international and local scientific and technology conferences, meetings, and study clubs, these notions proliferated and spread around the world. Imagine, this took place without iPads, iPhones and the Internet! That’s where we were 110 years ago.

Where are we today? For a moment consider Sweden’s lifespan statistics. Sweden has extraordinary health records spanning 200 years. A Swede born in 1800 could expect to live 32 years. By 1900, the average Swede lived to 52 years. Today, the Swedish lifespan is 82 years—an increase
(Continued on page 22)

HAROLD SLAVKIN CONVOCATION ADDRESS *(Continued from page 21)*

of more than 150% in just over 200 years. This remarkable advance was not due to genetic mutations. Rather, this “miracle” is the result of sustained international investments in personal hygiene, water and air quality improvements, nutrition and food safety, prenatal care, early childhood and K-12 education, immunizations, air conditioning, and, yes, fluoridation, all of which collectively improved the human condition, reduced mortality and morbidity, and gave hope for a better tomorrow.

Today, throughout the industrial countries of the world, people increasingly live longer and better than ever before. And, yes, the quality of oral health care has also profoundly advanced, especially during the last half of the 20th century. More people in the industrial nations of the world have more remaining teeth as they reach the 8th decade of life than ever before. The 20th century was transformational!

And despite our justified reasons to celebrate these accomplishments in oral health care, all too many people have been left behind with respect to the prevalence of diseases, including oral health diseases and disorders. Today, we acknowledge that a variety of socioeconomic determinants control morbidity and mortality.

The global population has reached 7 billion people; a 7-fold increase since 1900. Of these 7 billion people, nearly 2 billion are over the age of 65 years. Shockingly, 10% of the population consumes 70% of the health resources of most industrial nations. More than 1.5 billion are without the basic resources of clean water, sanitation, or health care. Almost 2 billion people live in poverty, many living on less than \$1 dollar per day.

In the United States, the third largest country in the world, a country of 310 million people, we provide outstanding oral health care for 2/3 of our population, yet 110 million people are without access to needed oral health services. Today, 25% of our nation's children live in poverty. Tooth decay is the #1 chronic disease of American children - - - “the silent epidemic” resulting in severe pain, loss of learning hours at school, and even death. Today, 1/3 of our nation's population are obese. Obese children develop hypertension, ironically “adult onset diabetes,” and cardiovascular diseases. Obesity has become epidemic in the industrial nations of the world, along with depression, diabetes,

and cardiovascular diseases. Collectively, these preventable “man-made diseases” are beginning to reduce life expectancy for many people in the industrial nations of the world.

Where are we going? I have focused on these health disparities in order to be an advocate, to encourage each of us to engage in solutions. How can we ensure that wellness for all people in each of our countries is in the global self-interest. In too many parts of the world, we have gone “off track” and, once recognized, the emerging global and national demographics offer leadership opportunities. Of course, I'm speaking to you who are leaders, you who have already demonstrated numerous contributions to your communities and nations. My thesis is that we must do more. We need to think about global, national as well as local problems and find innovations that can put the human condition back on track for all people in all nations.

We are assembled in California, in the Bay Area, and, in particular here in San Francisco where innovation is ubiquitous. Following the initiation of the Grand Rapids, Michigan clinical study to test the effectiveness of water fluoridation in 1948, San Francisco was one of the first major US cities to fluoridate its water supply in 1950. The people of San Francisco understood prevention. By the way, fluoridation saves \$4 billion dollars each year in dental costs in the United States. This is the region that translated the scientific accomplishments from the digital revolution into industrial and consumer products such as those from Apple, Intel, Hewlett-Packard, Cisco, and Dell. The Bay area gave birth to the biotechnology industry with the creation of Genentech in Emeryville, next to Oakland, just across the Bay in 1977. Genentech created the very first recombinant DNA product, which was human insulin for the treatment of diabetes. Innovation is the methodology to reduce or eliminate the various insults to our human condition.

Finally, as we look forward to the future, where are we going? How can we optimize the human condition? Specifically, through my lens, we need to “put the mouth back into the rest of the body.” From my perspective, this means our universities need to be reconfigured and we need to eliminate silos and create interdisciplinary or trans-professional learning environments. We need to engage in interdisciplinary team approach which was first demonstrated by

an orthodontist named Herbert Cooper in Lancaster, Pennsylvania when he created the very first craniofacial teams to address the special needs of infants presenting cleft lip and/or cleft palate in the late 1930s. In Cooper's model, physicians, dentists, nurses, social workers, psychologists, speech and hearing therapists, educators and families all worked together for the welfare, health and habilitation of the child - - - team work that often spanned 17-20 years in the life of the child patient and their families.

Can we envision a future when tooth decay is eradicated, when human behaviors and choices result in reducing oral cancers? Can we reduce periodontal diseases? Can we invest, through innovations, in reducing the tragic consequences of chronic facial pain? Can we design a strategy for all children to gain a healthy smile for a lifetime? Can we work closely with our colleagues in the other health professions to improve diabetes, reduce premature low birth weight babies, reduce osteoporosis, reduce obesity, eliminate tobacco products, and reduce cardiovascular diseases?

In order for patients to receive the best possible care, health professional education and practices must reflect the changing health needs of the population they serve, and the changing environment in which care is provided. In the US, 25% of physicians are foreign educated. Almost 40% of all nuts and cheeses found in the USA are imported. Flowers, food, people, and microbes cross the Pacific and Atlantic oceans everyday. Microbial infections do not recognize boundaries between nations. Health is a global matter! The future demands multinational, multidisciplinary approaches to exploring promising innovations in health professional education and practices. I implore you to connect with your health sciences schools and engage in changes that transform education to strengthen health care in an increasing interdependent world. We need to spark groundbreaking reforms. We need to form coalitions and not tolerate fragmented and often static organizations. We must broaden our horizons. Through your efforts, your work and your motivation, we can and will make a difference! We will leave the world better and healthier than we found it!

Dr. Slavkin is Professor of Dentistry, Herman Ostrow School of Dentistry, University of Southern California, Los Angeles, California

THE BIG EASY BECKONS

2013 ICD~USA SECTION ANNUAL MEETING

This will be the first time the ICD USA Section Annual Meeting and Convocation have been in New Orleans since Hurricane Katrina and the Big Easy is back. This city seduces you with its French Quarter, world-class cuisine, jazz bars and jazz funerals, colorful streetcars, paddlewheel steamboats, the Garden district, horse-drawn carriages, Crescent of the mighty Mississippi, Cajuns and Creoles, Bourbon Street, voodoo parlors, Mardis Gras, cast-iron balconies and literary heritage. A thorough list of temptations would cover several pages.

Our annual Convocation and Dinner Program will be celebrated at the Sheraton New Orleans Hotel at 500 Canal Street. The Fellowship Orientation Program will be on October 31 and the Convocation and Banquet will be held on November 1, 2013. Please keep your eyes open for the exact time of activities in the communications you receive from the ICD.

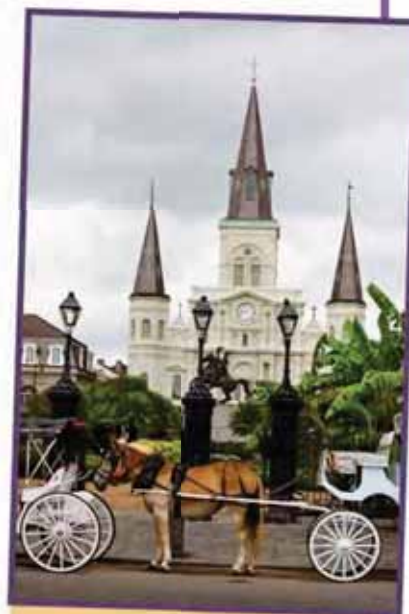

The first suggestion of New Orleans' distinct cultural heritage emerges with the knowledge that it was named for Philippe II, Duc d'Orleans, Regent of France under Louis XV. French and Spanish architectural styles dominate the old district's narrow streets which open onto Jackson Square, the central plaza that features a bronze of Andrew Jackson who defended the city in the War of 1812. This neighborhood also boasts St. Louis Cathedral, the old U.S. Mint, shady courtyards, the US Custom House, Basin and Bourbon Streets, the Café Du Monde for *café au lait* and *beignets*, sidewalk jazz quartets and incredible restaurants.

Check www.neworleansonline.com or www.louisianaswamp.com for more information.

If you've never been to New Orleans before, here is your chance to see this American treasure. Join us this year to renew old friendships, experience the camaraderie, honor our new Fellows and enjoy the banquet, music and dancing.

William O. Butler

William O. Butler, MS, Honorary Fellow

William O. Butler of San Antonio, Texas has been named an Honorary Fellow of the ICD. He has been the Director for Continuing Dental Education at the University of Texas Health Science Center San Antonio since 1994. He developed a master plan that involved expansion of program offerings and intense marketing efforts. The immediate goal was to grow an already successful program and set higher standards for providers in Continuing Education. The plan worked. The current program offers over 260 educational opportunities each year, registers over 9,000 participants annually, and has an active database of over 60,000 dental professionals. That says a lot for a school that has a little over 3,000 graduates.

A native of Salina, Kansas, he received his B.S. in 1972 and his M.S. in 1974 from Kansas State University. He had successful careers in Athletic Administration, medical post-graduate education, and with the Whittaker Corporation before taking on the challenges at Kansas State University Community Education Program. He was able to develop and implement a marketing plan that has created a new image for Community Education. The program received national attention for its uniqueness and creative approach to programming and business minded attitude to budgeting. Because of his success with improving financial operations, he was hired for the Director's position at the University of Missouri – Kansas City School of Dentistry. He developed a master plan that tripled not only attendance but income for the school and became self-supporting. A big challenge for dental school CE programs.

Bill has come up through the leadership chairs in many educational organizations.

San Francisco

The Hilton Union Square in San Francisco was the venue for the USA Section annual meeting last year. As always the hotel was welcoming and a convenient location for us to gather and welcome our new fellows, renew old friendships and make new acquaintances. Here are some memories of the meeting....

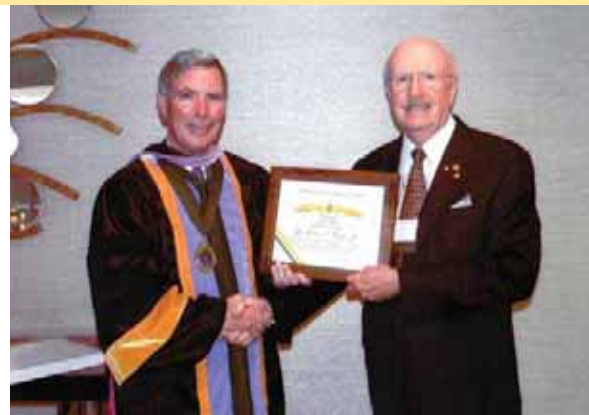

ICD USA Section President Michael Kenney with his 2012 team of Officers and Regents: Standing – Jeanne Nicolette, Charles Smith, Linda Himmelberger, Nora Harmsen, John Jordan, William Bennett, Dexter Barnes, Robert Seminara, Ronald Paler, Paul Isler, Peter Paulson, Margaret Culotta-Norton, Carol Turner, Joseph Kenneally. Seated – Wayne Del Carlo, William Birdwell, Richard Smith, Curtis Johnson, Paul Stubbs, Michael Kenney, Jack Clinton, Richard Galeone, Vangel Zissi, Allen Keenan, Thomas Fellman.

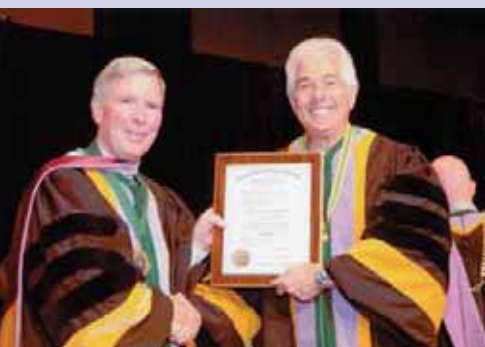

Members of the Class of 2012 were recognized for their contributions to the dental profession, their communities, and to mankind.

President Michael Kenney and First Lady Peggy Kenney were honored at the formal dinner dance.

President Kenney presented Robert L. Frazer Jr. with a plaque from the Section in appreciation for his guidance through the Applied Strategic Planning process.

President Kenney welcomes Dr. Joseph Greenberg of Pennsylvania into Fellowship. Dr. Greenberg was one of 240 joining the ICD from the United States.

San Francisco and the annual meeting of the USA Section was a great place to catch up and renew old friendships.

There was a packed house of family, friends and new Fellows at the Convocation Ceremony.

CONVOCAATION AND MEETINGS

CALIFORNIA

Flag bearers Jack Hinterman and Ted Roberson stand ready to lead the procession which begins the convocation ceremony.

Our incoming President Paul Stubbs with his family in San Francisco. Leah Stubbs, David Stubbs, Jena Stubbs, Paul Stubbs, Emily Stubbs Mika and Dale Mika.

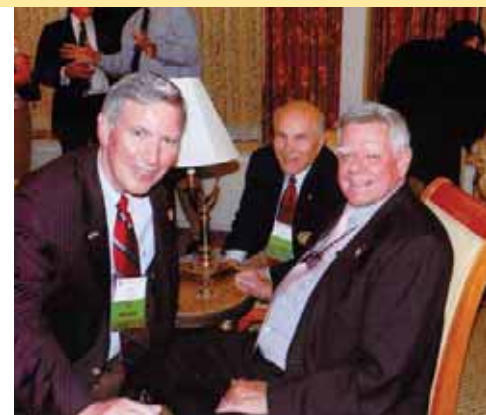

Prior to the procession the new Fellows gathered by District in the robing room.

The Executive Committee meets three times a year. At the table are Richard Smith, Richard Galeone, Curtis Johnson, Vangel Zissi, Michael Kenney, Paul Stubbs, Jack Clinton, James Allen, Carol Turner and Mary Jo Webster.

I live to serve. Secretary General Jack Hinterman contributes on so many levels.

Mike Kenney, Jack Clinton and Bob Brady in the ICD suite at the Hilton Hotel.

Dancing the night away to the tunes of "Shark Sandwich" at the Union Square Hilton.

The Board of Regents meets twice a year and is the governing body of the USA Section. It consists of 17 Regents, one from each Dental District, and the Executive Committee.

Everyone had a good time when a Lucille Ball impersonator appeared on the menu at the Spouse's Luncheon.

The following article was the 2012 ICD Journalism Award winner for the best article on Leadership.

LEADERSHIP NUGGETS FROM COACH KARL

By Anil J. Idiculla, DMD

As you might notice, the Communications Committee is trying to unify each issue of the *Articulator* around a central theme. This is only one of the many ways that the all new *Articulator* has been enhanced for our members. The theme of this particular issue is Leadership.

In an effort to get an outside opinion on this sought after topic, we decided to step out of the box and take a broad look around the Metropolitan Denver area for elite leaders. Our extensive search brought us to none other than George Karl, head coach of the Denver Nuggets, and a man in a real leadership hot seat. NBA coaching legend George Karl was introduced as the 19th

head coach in Nuggets history on Jan. 27, 2005 and has since overseen one of the most successful eras in team history, and has become a fixture in the Denver scene.

Coach Karl's 278 wins are already the second-most by a coach in Denver's NBA history, while his .618 winning percentage is unmatched.

His run of six-straight postseason appearances is the second-longest in Nuggets history to Doug Moe's nine-consecutive (1982-90). Denver joins Dallas and San Antonio as the only teams in the NBA to have made seven-straight playoff appearances.

The seventh-winningest coach in NBA annals, Karl has amassed 986 wins in his 22 seasons in the NBA. In fact, of the six men ahead of him on the all-time wins list, only three: Phil Jackson, Pat Riley and Jerry Sloan have a better winning percentage. He has also notched 74 career playoff victories, good for 12th all-time.

Unfortunately, Karl's 2009-10 season was cut short because of throat and neck cancer. He made the diagnosis public two days after the All-Star Game but coached the Nuggets for three weeks while going through radiation and chemotherapy treatment.

I hit up Coach Karl for a quick interview to see how he views and, more importantly, handles his role as a leader, especially considering his personal battle with cancer.

Dr. I: Coach Karl, What are some tips and strategies for us dentists to be better "coaches"?

Coach Karl: So much of being a leader of a team and leader of an office would be budgeting your energy and your time. It's not just about you. It's about how you present an attitude that's contagious. Motivated and intelligent employers need three things: First, they need to make their staff feel that they're a part of the process, not just someone told to do the motions of the process. Second, you need to bring positive mental energy into the building every day and not any type of negative energy. Everyone has to learn that what happened yesterday or last week can't be a part

of your attitude on a daily basis. Hiring people who have a positive perspective is important. Then third, it's important to show appreciation – show appreciation for their talents. You usually do that through communication and celebration. People like to be appreciated. They like to be communicated with. And I think when they do something at a special level, they like to be celebrated.

Dr. I: Do you have any specific quotes that you live by?

Coach Karl: It is our attitude at the beginning of a difficult undertaking which, more than anything else, will determine the outcome.

Dr. I: How do you cope with stress while staying positive?

Coach Karl: I'm a big believer in thought processes of staying above the line and not beneath the line. I could show you 100 words that are above the line and 100 words below the line and you'd be amazed how close the thought process is. I just really believe that thinking good things are going to happen will make good things happen. There's a karma to it. Your energy patterns and thought patterns should stay away from the past. Past thoughts create a thought process that's like being in mud – slow motion. Future thoughts or goal-oriented thoughts or present intentions are energizing. Staying on that side of energy is really important.

Dr. I: How did battling throat cancer change your perspective on dentistry and leadership?

Coach Karl: So much of the medical profession side is education and prevention. Dentists can be a part of preventing head and neck cancers. I know they're expanding that facet of it. When you get your teeth cleaned, can they put a 10-minute or 15-minute exam into it to check your neck and be a part of the process of prevention?

To me, cancer gave me a feeling of how privileged I am, what a great life I have. I have an opportunity to do what I love to do. The perseverance of going through the process has awakened the desire to celebrate on a daily basis that I have a pretty special life.

I would like to personally thank Coach Karl on behalf of the entire Metropolitan Denver Dental Society. You are a role model that all of us can gain valuable insight from. We are rooting for you professionally and personally, and of course, GO NUGGETS! ■

CREATING HEALTHY SMILES IN KENYA

H

CHOGORIA HOSPITAL DENTAL CLINIC

The building is complete and the long-awaited container full of equipment and supplies will arrive at the clinic in June. A Patterson Dental

equipment specialist will travel to install the equipment in the near future. Everyone at the hospital and in the community are very excited about the new, modern clinic and the services it will provide. A June 2014 trip is being planned and any ICD Fellows interested in an adventure of a lifetime into the Kenyan culture and to see first hand what ICD humanitarian efforts are accomplishing in Kenya should contact Dr. Bill Hunter at whunter42@aol.com for details.

Dr. Jim Murphy, an oral and maxillofacial surgeon, and his wife, Barbara, volunteered for most of 2012. Dr. Murphy developed an oral and maxillofacial surgical department suitable to receive through Health Volunteers Overseas (www.hvouse.org). Volunteers will provide clinical and didactic training to 11 oral and maxillofacial surgery undergraduate students enrolled in the four-year Masters of Science program at the School of Dental Sciences. Training will

be provided to two community Dental Officers as well as the Graduate Oral and Maxillofacial Registrars which rotate through PCEA Kikuyu Mission Hospital. Volunteers must be fully-trained, board-certified oral and maxillofacial surgeons who hold a current license to practice. Assignments are two weeks and housing is provided.

Dr. James Orban, Founder/Director, Children's International Dental Project (www.dentalvolunteers.com) is planning to bring a group of volunteers in June of 2013.

Dr. Marcelo Suzuki, Tufts University School of Dental Medicine, will be traveling to Kenya in September to put on a Maxillofacial Prosthetic Workshop at the Clinic. This educational experience will be open to all those interested in the Kenyan Dental Community.

Congratulations go to Dr. **Johnson Wambugu**, the dental officer in charge, who was recently approved to be a Fellow in the ICD. The work he has accomplished to build the success and reputation of the Clinic is truly remarkable. The ICD should be proud of the support it has provided to these projects in Kenya. Volunteer efforts continue to expand. The Kenyan community is extremely grateful and proud of all these efforts. Asante Sanal!

H

KIKUYU HOSPITAL DENTAL CLINIC

Efforts at the clinic have been very successful. The clinic has five Kenyan Dentists and a full staff supporting amazing services to the Kenyan community. The Clinic received volunteers from Global Dental Relief and treated 1,941 children in February 2013 and have plans to return yearly. For more information on volunteering at the Kikuyu Hospital Dental Clinic, please visit www.globaldentalrelief.org.

Nancy A. Kelly, MHS

Nancy A. Kelly, MHS, Honorary Fellow

Nancy A. Kelly of Washington D.C. has been awarded Honorary Fellowship in the International College of Dentists. She has been the Executive Director of Health Volunteers Overseas since it was founded in 1986. Prior to that, she worked for the National Council for International Health (now known as the Global Health Council) and served as a Maternal Child Health Worker with the US Peace Corps in the Republic of Korea.

Ms. Kelly received her BA in Asian Studies from the University of Virginia and a Master of Health Science degree in Maternal and Child Health from the Johns Hopkins Bloomberg School of Public Health.

She is a frequent speaker at meetings of professional associations on topics related to volunteer preparation, effective cross cultural communication, the role of education in capacity building, and leadership in cross cultural context. She has also written numerous articles on developing programs that effectively utilize the skills and expertise of short-term volunteer health care professionals, and how to identify an appropriate volunteer placement.

In addition to her responsibilities at Health Volunteers Overseas, Ms. Kelly serves as Chair of the Board of Directors of the US section of Handicap International and Vice Chair of Global Impact's Board of Directors as well as serving on other related Boards such as the Friends of Korea.

In 1998 Ms. Kelly was inducted into Delta Omega (Alpha Chapter) Honorary Public Health Society in recognition of her role in the founding of Health Volunteers Overseas.

ICD USA SECTION DEVELOPS TWO NEW DVDS

The BOR approved funding for a Promotional Video and a scripted slide

presentation at its 2012 Spring Meeting, as part of a major effort to

provide cutting edge communications to support and promote our activities and projects. The purpose of the video is to sustain the pride our Fellows experience as they are inducted into the Section and also make the public more aware of our many contributions. These DVDs will promote the USA Section by providing two versions of pertinent information, one professionally done and one done in-house. Both will be made available to all of the Section constituencies.

The professionally created Promotional Video is being developed to reflect the passion, richness, heritage, and projects of the USA Section and underscore the significance and Value of Fellowship. A professional firm, The Big Picture, was selected as our production company and our Districts have contributed toward this project. Much of the filming was completed over a two-day period in San Francisco at the BOR meeting. This video is expected to be available after the 2013 Spring BOR Meeting for distribution to our Districts, Fellows, future candidates, the profession, and potential sponsors. It will be available on our website, www.usa-icd.org, as well. Dr. Margot Cullota-Norton, Regent of District 4, and her committee deserve recognition for their efforts in developing this video.

The narrated *Share the Honor* scripted slide presentation is being developed by Dr. Ted Roberson, 2010 Past President, and Paula Rinaudo, our PR Consultant. This is an in-house effort that will provide a more detailed and informative view and history of the USA Section. It will also be available for distribution after the 2013 Spring BOR Meeting and will serve as a supplement to the Promotional Video. It will be available to Fellows in DVD format and placed on our website as well.

Both DVDs will be valuable as promotional products in the Section's efforts to establish and nurture corporate sponsorship and as mechanisms to help keep our Fellows engaged in USA Section service and leadership activities.

FOUNDATION REPORT

OF THE INTERNATIONAL COLLEGE OF DENTISTS

Well it is time to speak of the progress and happenings of 2012 in your Foundation. We have launched several fund raising events, and so far they have been successful. We have started a "KEY ROOM" (see page 36) where we sell goods with the Key ICD Logo on them. We are selling these items to raise money, but more importantly, we are also trying to raise your pride level in this organization. This Foundation does so much to further the projects of our Section—primarily, the outreach projects. We understand that as pride of this Organization grows, we will see an increase in giving to your Foundation in order to push our outreach programs or to continue them and increase them. To this end in our fund raising efforts, we have begun to create new levels of giving to honor the memory of two of our finest. First, in the Spring we started the \$1000 giving level which we called the Dr. John Lathrop Memorial giving level. The first one hundred donors at the thousand dollar level will be designated "Founders" and each will receive a beautifully framed selection of five or six dental postal stamps from around the world. These come from John's personal collection and they are a wonderful conversational piece when placed on your wall at home or in the office.

This fall we started the second Memorial level as a way to salute the memory of Dr. Richard Shaffer. This requires a bulk gift of at least \$500 and for this gift you will receive a beautifully struck coin with Dick's likeness on one side. This coin comes in its own beautiful handmade pouch which was made from the material of the retired Convocation Robes, plus all of this is accompanied with a wonderful description about all that you are getting and the symbolism that it carries. Of course,

we tricked Dick into writing part of this, so you just may notice the phraseology for which Dick was known. Who knows... it could be that the pouch you receive with your coin is made from the robe you wore when you were inducted.

So come on Fellows, let us each send in our financial support and help grow the corpus of your Foundation. Just think you could have one or both of these nice nostalgic gifts just for supporting your Foundation. Also, for those of you who wish, you could send in a lesser but appropriate amount and receive a Polo Shirt, ball cap, golf hat, denim shirt, back pack, tie or any other item which we may be adding in the future to the "KEY ROOM". Come and show your pride in your Fellowship and buy at least one item and then wear it to future meetings as a testament of your pride.

Now, let us talk about what else has happened this year as your Foundation has moved forward. I have set a goal of having our Corpus at the \$3 million+ level by the time my term as President is complete and I am only about one third of the way to meeting that goal. I need your help. Did you know that we were only able to give Grants for amounts that were about one third of what was requested this year? There are a lot of needs and we are doing our best to select the causes that best meet our Criteria. There is so much more to do and we were unable to achieve that at the present level of giving. The needs are out there and we must get stronger, bigger and better in order to do what it takes to get the job done. Please know that the Board of Trustees is not asking you to do anything we have not already done ourselves. Personally, I know you care, I know you want to make this Foundation a big success, I know you take great pride in having been honored as a Fellow, and I have a feeling you want to help and help

in a big way. So sit down while it is on your mind, and write a significant check today. You will be happy you did, the Foundation will be happy you did, and the Grant recipients will be overjoyed. Together we can do all that needs doing in our Profession. We can help broaden the knowledge of Dentistry, we can help the underserved patients who are in need, we can enrich the dental student experience by exposing them to other dental cultures throughout the world in our exchange program, and you can bring honor to all our Fellows because we are truly a caring and giving Organization.

In Fellowship,
James R. Allen,
DMD, FICD,
Foundation President

CORPORATE SPONSORS NEEDED

The USA Section of the ICD is looking for corporate sponsors to help fund its humanitarian and other projects and programs and we are asking for your help.

If you know of a company with core values similar to those of Integrity, Leadership and Service or a company with a Foundation having a Mission and Goals comparable to those of our ICD USA Foundation, it is possible that company would consider supporting one of our projects or programs.

As other components of the ICD, such as the College at Large, are also seeking corporate sponsorship it is important that the initial contact be coordinated. If several Fellows were to unknowingly solicit a company at the same time, none may end up receiving support.

The best course is to call the Section Office at (301) 251-8861 with your suggestion. They will inform the finance committee which will ensure that a grant request is properly completed and submitted. They will also check to confirm that no other part of the ICD has already approached the possible sponsor.

Note: It is a great advantage if the ICD Fellow knows a principal of the company and is willing to call and advocate for the ICD request.

PEACE CORPS PROJECT

Many Fellows of the USA Section have volunteered to provide a free complete dental examination, including a periodontal exam and a complete series of radiographs for current applicants to the Peace Corps. Any further dental care is the responsibility of the applicant. Fellows who have participated in the program have been inspired by the caliber and enthusiasm of the applicants. If you have participated in the Peace Corps Project, please let us know if your office information is correct. Go to the following link: www.usa-icd.org/projects/peace-corps/index.htm and then click on your state and scroll down alphabetically by city to see how your contact information is listed. To sign up, email maryjo@usa-icd.org with office address and phone number.

THE FOUNDATION'S KEY ROOM

Thank You for your GIFT to the FOUNDATION!

Golf Hat \$40

Tie \$135

Green Cap \$30

Black Back Pack \$145

John B. Lathrop Memorial Fund - \$1,000 - Framed collection of 5-6 dental stamps from the late Dr. Lathrop's personal collection and Sapphire Pin

Denim Shirt Men and Women Sizes \$85

Green and White Polo Shirts Men and Women Sizes \$70

Ruby Pin - \$3,000
Emerald Pin - \$5,000
Diamond Pin - \$10,000

OUR NEW REGENTS

WILLIAM M. FRASER is the new Regent for District 11. After obtaining an undergraduate degree from Gonzaga University, Bill graduated from the University of Oregon Dental School (now OHSU) in 1972. He completed a rotating dental internship at Reynolds Army Hospital, Fort Sill Oklahoma, and served two more years at Fort Benning, Georgia.

Bill practiced general dentistry in Bozeman, Montana from 1975 until his retirement in 2011. He served as president of the Montana Dental Assoc. in 2001, and was president of the Montana Oral Health Foundation and the 6th District Dental Society. He has been a Rotarian since 1975 and a past president, past president of the Bridger Bowl Ski Association, and a current board member of the Museum of the Rockies. From 1978 to the present he has worked with the pre-dental advisor of Montana State University to help organize and lecture for the "Introduction to Dentistry" course for the pre-dental students.

He and his wife Patty have two children: Cheri Conner MD, an anesthesiologist in Bozeman, and Cmdr Billy Fraser, a Navy pilot (EA18G). Bill enjoys travel, camping, golf, skiing, hunting, fishing, pack trips and trail rides with their horses, and especially enjoys their five grandchildren.

DAVID R. HOLWAGER of Cambridge City, Indiana graduated from Indiana University School of Dentistry in 1982 and has been a member of Organized Dentistry since his freshman year. He has served on the ADA's Council on Access, Prevention and Interprofessional Relations from 2008 and was Council Chair in 2012. While on CAPIR, he was on the Oral Health Literacy subcommittee, the Community Dental Health Coordinator pilot study project, and served as workgroup chair, and sustainability committee chair. He's served as a Delegate or Alternate to the ADA since 2001 and has been on the ADA reference committee on Bylaws and Credentials. In District 7 he served as the 148th President of the IDA. David also served on Governmental Affairs Council for Indiana and was co-chair of the IDA Political Action Committee. In his Component of Eastern Indiana Dental Society he held the office of President, other offices and has served as Secretary for 15 years. He is a member of St. Elizabeth Catholic Church and active in Cambridge City serving on the Wastewater District for 18 years and active in many civic organizations. Elaine and David have been married for over 28 years and have two children, Mary Jean and Andrea.

PETER P. KORCH III of Bigler, Pennsylvania, is the new Regent from District 3. A 1991 graduate of the University of Pittsburgh, he is a second generation dentist who maintains two offices.

Peter currently serves as Speaker of the House of Delegates for the Pennsylvania Dental Association and is president of his local dental society. In ICD-USA, he has served on the Great Expectations Mentoring Professionalism and Strategic Planning committees. In addition to ICD, he is a Fellow of the American College of Dentists and the Pierre Fauchard Academy. He is also a member of the American Institute of Parliamentarians.

Peter has worked as an Adjunct Associate Professor of Biology at his college alma mater since 1994. He recently ended a 15 year run as a board member of their alumni association, which included 2 years as its president and personally funded an academic award granted to the student showing the most promise in the field of biology. He has published or presented papers on the topics of insect biology and history of dentistry.

Peter has a passion for music, especially when played on vinyl, as well as an inordinate fondness for British motorcars. He and his wife, Elizabeth Morgan, VMD, live on a farm where tending gardens and caring for their livestock is a labor of love.

DOUGLAS L. STARKEY, the new 17th District Regent, is a 1987 graduate of the University of Florida College of Dentistry. He completed an Advanced Education residency in General Dentistry at Emory University the following year.

After completing his residency he established a general practice in West Palm Beach, Florida. He has served the profession in numerous roles at the local, district, state, and national levels. Doug has been involved in the local community through the Kiwanis Club, having served as president, and as a board member of the Palm Glades Girl Scout Council.

Doug and his wife Traci keep busy raising their three children Jenna, a Junior at UF, Go Gators!, Emily, a college bound senior in high school, Jordan, a high school junior, and two non-college bound Corgi puppies. Doug enjoys traveling with his family, tennis, running, biking, and paddle-boarding.

THE ICD THANKS COCA-COLA FOR ITS SUPPORT!

The *Coca-Cola* Company is dedicated to fostering international harmony and understanding. To attain this goal they have generously supported the International College of Dentists USA Section Foundation with a substantial gift to help our organization with the exchange of students from foreign dental schools with an American partner. They supported our Global initiative project to

foster more volunteerism by American dentists to less served nations from both our own ICD Fellows and any dentist wishing to "give back."

This generous financial gift was given by *Coca-Cola* Foundation to support and advance our Foundation with the help of two dedicated employees of the *Coca-Cola* Company. Ms. Trudy Strawn and Dr. Rhona

Applebaum who understand the ICD vision and realized it fit very nicely with the goal of the *Coca-Cola* Foundation "to foster international relations thru education and meaningful interaction between different cultures". We thank the *Coca-Cola* Company for being such a fine citizen of this great country of ours.

GREAT EXPECTATIONS

Since its creation by the Dallas County Dental Society in 2007, *Great Expectations, Mentoring Professionalism (GEMP)* has been warmly embraced by those schools participating. ICD-USA Section picked up the program as a complement to our Leadership Initiative in 2009. What started as a dentist to student mentoring program has evolved into a student to student mentoring program, distinguishing GEMP from many other types of mentoring programs. Reports from the programs in Texas claim that, "The upperclassmen have been very helpful and give the first-year students one more person to talk to." This regular peer-to-peer contact provides not only immediate help to young professionals, but is seen to lay the ground work for future attitudes of our young

colleagues. The information that ICD-USA provides to those interested in starting a GEMP program is referred to as *The Packet*. It provides a wealth of information on the program, including its origins, outline of existing programs, testimonials, as well as supplementary background information.

According to Dr. **Peter Korch**, Chair, this committee will be surveying the dental schools to see how many already have mentoring programs so they can focus on newer schools without programs. They intend to also contact dental schools annually with information about GEMP, contact the ASDA chapters annually, and recruit dental students to speak at regional and national dental student meetings.

Judith L. Shub

Judith L. Shub, PhD, Honorary Fellow

Dr. Shub is the assistant executive director of the New York State Dental Association (NYSDA). She has provided administrative and technical support for councils and committees including peer review and quality assurance, dental health planning and hospital dentistry, dental benefits, dental practice, chemical dependency, ethics, and education, and licensure. Dr. Shub is a member of NYSDA's Task Force on Public Health and Access and Technology Applications. She was a contributor to the NYS Department of Health's Oral Health Plan and currently serves on the committee drafting the new plan. She has numerous publications including articles on

the rationale for eliminating the use of live patients as test subjects on licensing examinations, dental benefits, Medicaid, managed care contracting, professional regulations and substance abuse. She also is a frequent lecturer on these topics.

Dr. Shub holds a Ph.D. in Sociology from the Graduate School of the City University of New York. Her studies concentrated on medical sociology and professions. Research for her dissertation, "The Influence of Social Structure on Behavior: A Study of the Dental Student Patient Relationship", was funded by a National Science Foundation fellowship.

Dr. Shub volunteers as a director on several community boards and is life member of the Chatham Rescue Squad. She resides near Albany, New York with her husband, general dentist and ICD fellow, Dr. Steven Essig. Their son, Zachary Shub-Essig, is completing studies at Fordham University School of Law.

Richard A. Shick

Richard A. Shick, DDS, Awarded Master Fellowship and Named Outstanding Dental Leader

Richard A. Shick received his DDS and MS in Periodontics from the University of Michigan School of Dentistry. He served as an Air Force Dental Officer for two years after graduation, then returned to Michigan where he joined the research and teaching staff of the School of Dentistry for 18 years and operated a private periodontal practice in Flint for 37 years. Dr. Shick became a Diplomat of the American Board of Periodontology in 1963. For 13 years he had his own Detroit-based radio segment entitled *Tips from the Top on Teeth*.

Dr. Shick was a member of the House of Delegates of the American Dental Association for ten years. He also served on the National Commission of Dental Accreditation; as Chair of the Specialty Accrediting Division, and Chair of the National Committee on Continuing Dental Education. He was President of the Michigan Dental Association in 1976. In 1978 he was elected First Vice President of the ADA. Since 1981 he has served as President of the Former Officers' Club of the ADA. He has received multiple recognition and honorary awards at the local, state and national levels. One of his most cherished accomplishments was the successful co-chairing of two fluoridation referenda for the city of Flint, MI.

Dr. Shick has been a member of the ICD since 1976. He served as the USA Section President in 2001. During his tenure the humanitarian effort to support a Dental Public Health Specialty Program was financed for Vietnam. The program has extended to Laos, Cambodia and Africa. He was appointed to the ICD Worldwide Council in 2002; he served on the Council until his election as Worldwide College Vice President in 2007, serving as President in 2009. Dr. Shick led the 2008 taskforce that resulted in the establishment of an independent Worldwide ICD office.

Dr. Shick participates in a number of civic activities: membership in the Flint Rotary Club, County Republican Party Parliamentarian, Vice Chairman of the Mott Community College Foundation Board, Chief Usher in his Methodist church, and he is always up for a good game of paddleball. Dr. Shick is married to his lovely wife Rose Marie. The greatest joy in life is their five children and 19 grandchildren.

Robert E. Brady

Robert E. Brady, DMD, Master Fellow

Robert E. Brady was honored with Master Fellowship at the 2012 annual meeting in San Francisco. Upon graduation from Tufts

University School of Dental Medicine in 1965, Dr. Brady was commissioned as a Captain in the United States Army. He became a board certified prosthodontist and rose through the ranks to become a General before retiring with great distinction from the US Army Dental Corps. He has published a dozen articles, directed a Residency Training Program, presented papers, run many clinics and holds membership in eight professional organizations. He has also received the US Army Distinguished Service Medal, two Legions of Merit and two Bronze Star medals.

Dr. Brady was inducted into Fellowship in the College in 1991. During the period 1999 to 2010 Dr. Brady served as Registrar of the USA Section of the International College of Dentists, and as its Secretary General worked with leaders from Sections around the world. During that time frame the College grew from 9,600 to 10,650 Fellows, and added two new Autonomous Sections.

The USA Section (2004) and the Worldwide College (2008) surveyed its Board members, Councilors and constituent leaders. All reviews and surveys were extremely complimentary of Dr. Brady and his staff for their diplomatic, efficient way of handling the needs of Sections and Regions around the world. Dr. Brady was a fountain of knowledge and suggestions, as well as an invaluable source of corporate information and guidance in the creation of an independent central office to serve the needs of the ICD. Due to his outstanding assistance, the transition to a new office was as seamless as possible.

Dr. Brady and his tremendously supportive wife Janet personify the very spirit and essence of collegiality envisioned by the College founders. Their dedication and loyalty to the objectives of the College reflect the visions and aspirations of those prominent Master Fellow recipients who came before them. His distinguished career in the profession, outstanding leadership in the military and exemplary service to the College has made Dr. Robert E. Brady an international beacon that has successfully guided the ICD. His contributions have been many and enduring, and will continue to have tremendous impact on the welfare and progress of the College, the Section and on a worldwide basis, for many years to come.

INTERNATIONAL STUDENT EXCHANGE PROGRAM

The International Student Exchange Subcommittee of the International College of Dentists, USA Section, annually presents one of our participating exchange students with The Richard C. Rice Scholars Award for the best post-exchange report.

This year's winner is James Phero of the University of North Carolina School of Dentistry. His report on "The Moldova Project" earned our \$300 award. It was a very thoughtful and complete perspective on his experience in Moldova. James wrote "In addition to clinic work, the one thing that struck me the most about the Moldova project was that it was a partnership not a mission trip. This is not to say we did not treat a lot of individuals of need and raise money for supplies and the trip, it meant we worked together to treat these children, sharing philosophies and techniques with each other."

"The Moldova Project was an experience that had a large impact on me and will be remembered for the rest of my life. I am very blessed to be part of such a wonderful team and will do everything I can to help next year's project and future teams to continue this partnership with Moldova."

Nice work James – and *Congratulations!*

MOLDOVA

By James Phero

There are many different directions I could take for this report but I thought the most beneficial would be to share my experience and the impact that this trip had on my life and future as a practitioner.

The relationship between Moldova and North Carolina began in March 2000 when Dr. Hershey, Dr. Kriegsman, Dr. Mumford, and Dr. Mackler visited the country. After this visit there was a regular exchange of faculty and dentists culminating in dental students joining the project in 2007. The UNC School of Dentistry's 2012 Moldova project team consisted of three UNC faculty along with second and third year UNC dental students. There were also military faculty that we worked with as well. The team traveled to Chisinau where they treated individuals in three different clinics.

Straseni was the largest of the three sites and is an orphanage where we were able to set up two dental chairs. There were two UNC dental students, two Moldovan dental students, and a faculty that ran this site for the four to five days that we were able to treat patients. The second site is the Laloveni clinic which is a boarding school for children with mobility and mental impairment. The children live here and are taken care of by specialists where they receive therapy sessions to help with their impairments. At this site there was one UNC dental student, one or two Moldovan students, and a faculty treating the kids. The last site was set up to treat the children from the local Jewish community. It was in the DiaDent clinic which was a private office of one of the Moldovan dentists

who shut down their practice so that we could treat patients in her office. There were three chairs at this clinic and was run by one fourth year UNC dental student, two faculty, and two Moldovan dental students.

We split up and rotated through the various clinics based on our skills and the skills needed at that clinic. I spent three of my days at the DiaDent Clinic where I personally treated over ten patients a day. A majority of the younger children I saw had the beginnings of occlusal decay and required either sealants or conservative composite resin restorations. It was a great service in my opinion to catch the decay early to prevent further destruction of the teeth and to also provide oral hygiene instructions to the care givers to prevent future decay. For some of the older children we saw who had not had previous sealants, greater treatment was required. There were a lot of large composite restorations placed (the Moldovan dental school preaches amalgam free dentistry so without amalgamators there was really no ability to place amalgam restorations), extractions, and in the case of a few individuals endodontic therapy. While we did not have the time to address all the dental needs of every child coming through I was able to make sure that every child I treated had sealants or restorations on all of their permanent molars to protect against future occlusal decay. To go along with this I think having the ability to have a translator talk about oral hygiene will have a big impact in the future.

District 16 Vice Regent Bettie McKaig with James Phero at UNC.

In addition to clinic work, the one thing that struck me the most about the Moldova project was that it was a partnership not a mission trip. This is not to say we did not treat a lot of individuals of need and raise money for supplies and the trip, it meant we worked together to treat these children, sharing philosophies and techniques with each other. A unique aspect about the project is this partnership begins long before we touched down in Moldova. There is an exchange program where Moldovan dental students will come to the University of North Carolina and spend time with UNC dental students through the clinic and outside activities. I was lucky enough to spend time with both Roman and Corina who were two upper level dental students from Moldova who came on this trip. It was a great experience to get to know them and share our school and city with them. We continued to stay in touch and when we arrived in Moldova they were waiting to show us their school and culture. Additionally, we treated patients together with the Moldovans, taking turns assisting and operating. Throughout the process we discussed the thought process behind what we were doing and why we were doing

it which led to sharing of techniques. We did much more than treat patients in need, we built relationships. I speak with Moldovans I met through this experience on a regular basis through email and Skype and have created lifelong friendships.

One friendship in particular that was very meaningful for me was my friendship with Roman. I am pursuing a career in oral and maxillofacial surgery in the US and Roman is pursuing the same career in Moldova. His father is the head of oral and maxillofacial surgery in the country of Moldova and I was blessed enough to have the opportunity to spend a day with both of them at the children's hospital where they treat a lot of facial deformities like cleft lip and palate. It was an amazing experience to be able to scrub into cases and see the techniques used in Moldova as well as to look through old cases to see their results. I was blown away by the results they were able to obtain, especially considering the equipment they have available. Besides a modern anesthesia machine, there was not a lot of "high tech" equipment at their disposal which would be common in an operating room in the US. They were for the most part able to do their procedures with suction and steel which is vastly different from the electrocautery and other equipment that we use in the US. I have a great deal of respect for the surgeons I met and I plan on going back later in my oral surgery career to perform surgery with the Moldovans so that I can learn their techniques on how to obtain great results with limited equipment. Mission trips will be part of my practice so learning these techniques from Roman and his father will be invaluable.

The Moldova Project was an experience that had a large impact on me and will be remembered for the rest of my life. I am very blessed to be part of such a wonderful team and will do everything I can to help next year's project and future teams to continue this partnership with Moldova.

CRITERIA FOR "LEADERS IN DENTISTRY" SERIES

Nominations for "Leaders in Dentistry" should be sent to the ICD-USA Section Office, 51 Monroe Street, Suite 1400, Rockville, MD 20850. All nominations will be forwarded to the members of the History Committee. The History Committee will review the nominations and forward its recommendation(s) to the Board of Regents for approval.

Nominations shall include a CV and a cover letter, both of which must be in English. The nominee's professional conduct should embody the mission and spirit of the ICD. Outstanding contributions to dental education, the art and science of dentistry, humanitarian service, and/or leadership are necessary for consideration.

The nominee, once approved by the Board of Regents, must be willing to be interviewed and video-recorded in English at a time and place convenient to the organization.

Nominations may be submitted by any individual or entity.

The nominee need not be a Fellow of the International College of Dentists.

*PP USA Section and College, Master **Registrar/Secretary General Emeritus, Ottofy-Okumura Awardee, Master

***Past Pres USA, CAL Treasurer Emeritus, Master

Dr. Hannelore Loevy Taschini

We are saddened to report the passing of Hannelore Loevy Taschini who was the Regent of District 8 from 2003 to 2006. In recent years Dr. Loevy had various health issues including congestive heart failure from which she passed in her sleep on March 23, 2013. She was 81.

Hannelore was born in Berlin, Germany and emigrated with her family to Sao Paulo, Brazil escaping

the Holocaust. She completed her dental degree in Brazil, and then moved to Chicago in 1957 where she met and married her late husband Pierangelo Taschini, MD. Dr. Loevy was a professor of Clinical Pediatric Dentistry at the University of Illinois at Chicago School of Dentistry where she taught for over 41 years, retiring in 2005. She is the dear mother of Luciana and the late Thea Clara Taschini. She was a beloved teacher to many. She was also very active in the pediatric dental community as an author and served as an editor for various publications.

All those who knew her will miss her warm nature and her zest for life.

James P. Kerrigan

We are saddened to report the passing of Master Fellow James P. Kerrigan on June 19, 2012. Dr. Kerrigan was a past president of the USA Section in 1989, served as College Treasurer from 1988-2006, as a College Councilor from 1988-2002, and as an ADA Vice President in 1974-1975.

Dr. Kerrigan received his undergraduate degree from

Catholic University in Washington, D.C., his dental degree from Case Western Reserve in Cleveland, Ohio, and his post graduate degree in orthodontics from Columbia University in New York City. In addition to the ICD he was very active in the ADA, the AAO and the D.C. Dental Society. He was the recipient of many honors and awards.

He was also active in his parish of Our Lady of Mercy in Potomac, MD, was an avid Redskins fan, enjoyed his dogs and his beach cottage in Fenwick Island and had a remarkable sense of humor.

Dr. Kerrigan is survived by his wife, Patricia Lilly Kerrigan, his children and grandchildren. He will be dearly missed.

IN MEMORIAM ~ CONTINUED

INTERNATIONAL COLLEGE OF DENTISTS ~ USA SECTION

Richard G. Shaffer

ICD Ottogy-Okumura Awardee, Secretary General/Registrar Emeritus, Master Fellow
Richard G. Shaffer passed away in July of 2012.

Rear Admiral Richard G. Shaffer was born in Canton, Ohio in 1934. He was his high school class president, a graduate of Ohio Wesleyan University and of Case

Western Reserve University School of Dentistry. In 1960, he began a distinguished career in the United States Navy as an intern at Portsmouth, VA, and by 1984 had risen to Rear Admiral and Chief of the Navy Dental Corps. He and his wife, Barb loved the Navy and the countless lifelong friends they made. He retired in 1989 and then had ten "fantastic" years as Secretary General of the ICD and Registrar of the USA Section. McLean Bible Church became his cherished church home. He then spent his next thirteen years volunteering wherever he was needed including the Red Cross at Bethesda Naval Hospital, where he had once been commander at the end of his Navy career.

He loved most of all spending time with his grandchildren and as much time as possible at Little Point Sable in Michigan. "Bop", as his family called him, was a leader all of his life, first to his family and then to the many organizations and people in them. He had untiring energy, enthusiasm, and a gift for communicating and mentoring.

Dr. Shaffer was interred at Arlington National Cemetery on November 16, 2012. His casket was carried to his gravesite by horse-drawn caisson with his family and friends walking behind. The service began with a brass band and ended with a bugler playing "Taps". The color guard, 13-gun cannon fire salute, 3-volley gun salute, ceremonial flag folding by eight Navy Sailors, and presentation to Barb Shaffer by ICD Fellow, RADM Bruce A. Doll, all contributed to the beauty of this touching and memorable service. Lon Solomon, Senior Pastor of McLane Bible Church and the Shaffers' long-time friend gave stirring eulogy from his personal perspective.

Patricia McCann Bartheld

We are sorry to report that Patricia McCann Bartheld passed away on August 23, 2012. Pat was well known and much loved in the USA Section. She was the wife of Robert Bartheld who was the ICD USA President in 2004. She was born on August 4, 1933 in Oklahoma City and a graduate of McAlester High

School and Oklahoma State University. Pat was a member of the First Presbyterian Church, Community Bible Study, Daughters of the American Revolution, The Red Hat, McAlester Garden Club and Kappa Kappa Gamma Sorority. She was active with her family and was a master gardener. She was a lovely lady and she will be sorely missed.

Ruth Motisher Selfridge

We are sorry to tell you of the passing of Ruth Motisher Selfridge on May 31, 2012. Ruthe, as she was known, was born in Sewell, NJ, where she met and married George (Satch) Selfridge on February 21, 1947. Satch Selfridge is the ICD Deputy Secretary General Emeritus and USA Section's Deputy Registrar

Emeritus. They both entered the Navy life, where she became a strong supporter of her husband's Naval career as well as the cornerstone of their family. Ruthe was involved in many of the Naval Dental organizations culminating in her election as President (1970-71) of the Navy DC Wives Club. Ruth(e) means, "companion, friend, vision of beauty" and that is how her friends and family will always remember her.

Ruthe leaves behind her husband of 65 years, George D. Selfridge, her three daughters, Pamela S. Ruane (William), Kimberly D. Schaffer (Mason Lee) and Cheryl S. Townsley (John), and two granddaughters, Chelby M. Townsley and Cramer M. Townsley, her sister Barbara Miller (Frank), several nieces and nephews and her dearest childhood friend, Laura Ristine.

THE WALL

BY C. DAVID HAY, DDS

C. David Hay of Terre Haute, Indiana is a Past Regent of District 7 and a noted author of poetry with hundreds of poems and several books on poetry published over the years. His poem, The Wall was chosen to be included with the Vigo County's Vietnam War Memorial. He had the honor of reading the poem at the dedication ceremony and it is included on a plaque as a permanent part of the memorial.

Granite as black as the smoke of war,
A name to touch and cry,
An epitaph of sacrifice,
And still the question – Why?

Homage paid in special ways:
A rose – a note – a sigh –
Frustration wrought with anger
That fate chose these to die.

They never asked for glory,
Just a grave of homeland sod,
They gave their lives for country,
Now they answer but to God.

Could tears but wash the pain away
And heal a nation's scar,
That men may find a better way
Than futile acts of war.

Pray their death was not in vain –
A lesson to recall:
A future world without the need
Of names upon a wall.

NOTICE TO CONTRIBUTORS

THE DEADLINE FOR THE 2014 KEY IS JANUARY 15, 2014

If possible, submissions of the text of articles for the 2014 edition of the *KEY* should be single-spaced, done in Word Format and emailed to the editor at RJGDDS59@COMCAST.NET. Photography to be used with the article may also be sent electronically and preferably in color. Although we will make every effort, we cannot guarantee the return of original photographs. It is best to send a duplicate.

If it is not possible to email the text together with the photographs, then mail the material to:
Richard J. Galeone, DDS, Editor • 122 Holly Drive, Lansdale, PA 19446
Emailing the material **AND** sending a hard copy is recommended.

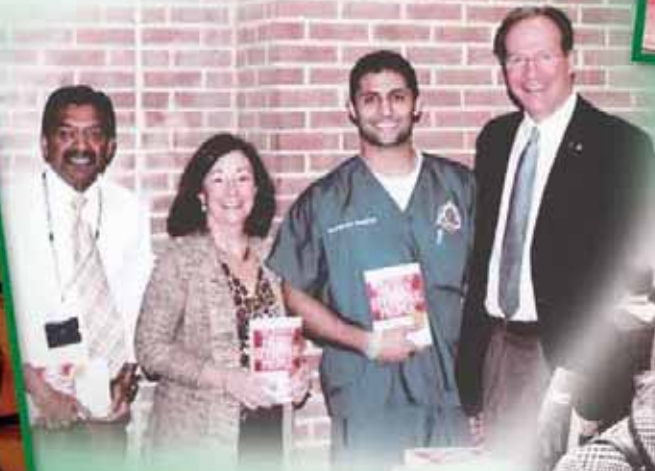

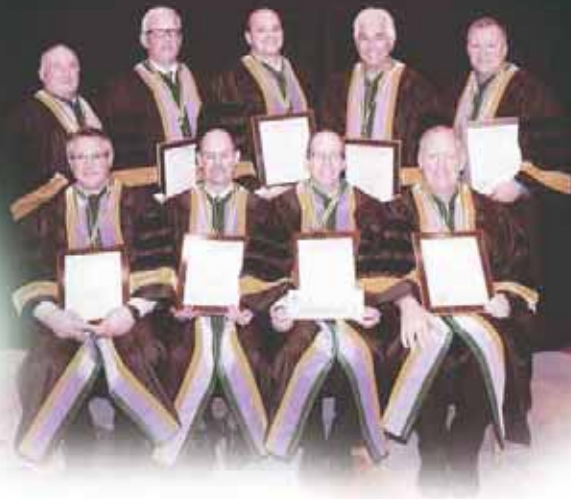

Captions: Please do not write on the back of photographs. This can cause indentations and result in distortions. Write the caption on a label and stick it to the back of the photo, or tape it to the bottom/back.

Sending the material prior to the deadline date is greatly appreciated. We will try our best to accommodate late submissions, but cannot promise that they will be included.

ICD DISTRICT REPORTS

2013

DISTRICT 1

CONNECTICUT

Editor: Thomas Brady

Dr. **Carolyn Malon** is current President of the Connecticut State Dental Association (CSDA). Carolyn is Chair of the CSDA Governance Review Committee and is in the ADA Governance Task Force looking to streamline and modernize the structure of the ADA. Dr. **Howard Mark** was awarded the Lifetime Achievement Award by the Hartford Dental Society. Howard is Chair of the CSDA PANDA program (Prevent Abuse and Neglect through Dental Awareness) and is on the steering committee for CTMOM (Mission of Mercy). Howard is Trustee Emeritus for the McManus Fund and is a Past President of the International Pierre Fauchard Academy. Following in Howard's footsteps is his daughter, Dr. **Robin Santiago**. Robin is CT Chair for the PFA, has served on the CSDA Continuing Education Council for many years and has volunteered for CTMOM. Dr. **Joseph Picone** has chaired the CSDA Continuing Education Council for several years. The program has received high praise nationwide for its quality presentations that consistently draw large numbers of dentists and staff. Joe's dedication to continuing education is demonstrated in his achieving his MAGD award and he is currently serving on the national AGD Annual Meeting Council. Dr. **Thomas Gorman** and Dr. **Maria Smith** are serving at the national level of the ACD. Maria has been elected to serve her second term as ACD Treasurer. Dr. **Thomas Brady** was recently honored with the CSDA Distinguished Service Award for a lifetime of service to organized dentistry. Tom is a CSDA Past President. He has been in the ADA House of Delegates for the past 12 years. He is a new member of the ADA Council on Dental Benefits Programs. He also achieved his Fellowship in the American Academy of Forensic Sciences in Forensic Odontology. Dr. **Stephanie Urillo** has been active in dentistry and in the local community. Stephanie has served as CSDA Membership Council Liaison to the UCONN Dental School students for the past six years. Through her energy and caring personality, the UCONN program

has multiple events to interact with the CSDA and has a very active ASDA membership. Stephanie is Vice President for the Greater Southington Dental Society. She is also serving her second term on the Town of Southington Town Council.

For the past 30 years Dr. **Elliot Berman** has been an organizer and member of the Hartford Dental Society's annual Charity Golf Outing. Through the efforts of Elliot and others, this event has donated several thousands of dollars to the Smilemobile and other charities. Dr. **Robert Schreiber** has spent the past several years helping people he doesn't know. Bob has been active in the national MOM project. For the past five plus years, Bob has chaired the CTMOM project that has helped thousands of people who have no other option for dental care. Through Bob's tireless efforts, he has inspired hundreds of volunteers to donate several millions of dollars in free dental care to those in need. Dr. **Bruce Tandy** is serving his dental colleagues in New England as an officer in the ADA House of Delegates District 1 delegation.

MAINE

Editor: Joseph Kenneally

Jeff Dow continues his term as ADA Trustee from the First District, and his able leadership has kept the District among the most effective in the ADA. **Jonathan Shenkin** serves as chair of the ADA Council on Communications. The MDA Executive Board boasts a number of Fellows, including Past President **Dean Tourigny**, President **Michelle Mazur-Kary**, President-Elect **Demi Kouzounas** (who is also running for the Maine Legislature at the time of this writing), Secretary **Karl Woods**, Long Term Delegate **Paul Zimmerman**, and Vice President **Rob Berube**, who is a New Fellow of 2012. The Maine Board of Dental Examiners includes Fellows **David Moyer**, **Charles Zois**, and New Fellow **Geraldine Schneider**. Past Board member **Denise Theriault** is the new ICD Deputy Regent for Maine.

Lisa Howard serves the New England Society of Orthodontists as its AAO PAC Board representative. **Joe Kenneally** has been elected Vice President of International College of Dentists at Large.

The Maine Chapter held its annual combined luncheon with the American College of Dentists and the Pierre Fauchard Academy at the Maine Dental Association Annual Meeting at the Samoset Resort on September 29, 2012. The luncheon was well attended by numerous Fellows and guests.

MASSACHUSETTS

Editor: Lisa Vouras

Dr. **Robert Faiella** is the 149th president of the American Dental Association. **Paula Friedman** is President of the Massachusetts Dental Society, and serves with President-Elect **Michael Wasserman**, Vice President **Tony Giamberardino**, and Assistant Secretary **Janis Moriarty**. Dr. Moriarty also singlehandedly raised close to \$15,000 for the Jimmy Fund Marathon Walk in 2012. **Peter Delli Colli** has been serving as President of the Tufts University School of Dental Medicine Alumni Association. **Raymond Martin** has been appointed the First District representative to the Council on Governmental Affairs at the ADA, and our newest inductee into the Fellowship, **N. Peter Hjorth**, has been named General Chair for Yankee Dental Congress 2015.

We are pleased to announce that **Morton Rosenberg** of Boston received The Horace Wells Award from the International Federation of Dental Anesthesiology Societies (IFDAS) at their combined meeting with the American Dental Society of Anesthesia (ADSA) in recognition of international accomplishments in the field of Anesthesiology in Dentistry on March 2, 2012 in Hawaii. Dr. Rosenberg is Professor and Head, Division of Anesthesia and Pain Control, department of Oral and Maxillofacial Surgery, Tufts University School of Dental Medicine and Associate Professor of Anesthesia, Tufts University School of Medicine. In addition, he is a Fellow of the USA Section of the ICD.

NEW HAMPSHIRE

Editor: Eliot Paisner

Donna Kalil received the Golden tooth award from the Greater Nashua Dental Connection. NHDS executive officers include Fellows **Earl Simpson**, **Richard Rosato**, **Glenda Reynolds**, and **Peter**

DISTRICT 2

Welnak. New Fellows include executive officers **Robert Maguire** and **Puneet Kochhar** and outgoing NHDS President **Kevin (Drew) Wilson**. **Eliot Paisner** and **William Mehan** are Board members of the NHDS Foundation. **Charles Albee** serves as the Editor of the New England Dental Society. **Alfonse (Skip) Homicz** is the 2012 recipient of the prestigious NH MacRury Award. **Marshall Baldassarre** and **Charles Albee** serve on the NHDS Board of Dental Examiners. **Donald Johnson** and **Neil Hiltunen** continue to offer educational meetings for the Association of Retiring Dentists. **Stephen Ura** has completed his role as Vice Chair of the ADA Council on Dental Benefits and as Chair of the subcommittee of the CDT code. **Anthony Storace** and **Pamela Baldassarre** are Board members of NE ACD. A successful meeting of NH Fellows was held in September at the Manchester Country Club.

RHODE ISLAND

Editor: Jeffrey Dodge

The Rhode Island Chapter of the ICD has had a busy year. Our annual ICD dinner included honoring our new RIDA President, Dr. **Steve Brown** and presenting him with a leadership book. Traditionally after the book is presented it is passed around the table and signed by the ICD Fellows in attendance as a show of our support for him moving forward.

Dr. **Frank Connor**, Vice Regent for District One, has been named as the recipient of the James W. Etherington Award. The purpose of this award is to recognize New England dentists who have dedicated much of their professional lives to the high ideals and objectives of organized dentistry. The award will be presented at the President's Reception on Wednesday January 31, 2013 in conjunction with the Yankee Dental Conference. Among a few of Frank's many accomplishments we can list are Past President of the RIDA, Long-term Delegate of the RIDA, Past President of AAOMS, member of the ADPAC Board, as well as serving on committees and councils at all levels of the Tripartite. In addition to Fellowship in the ICD, where he has served as New England editor for the KEY, Frank is also a Fellow of the

American College of Dentists, the Pierre Fauchard Academy and a Board certified oral surgeon.

Dr. **Paul Calitri**, a general dentist from West Greenwich, is our newest Fellow. Paul was inducted into the ICD at the Annual Convocation held on October 19 in San Francisco. Paul is currently the Secretary/Treasurer and Scientific Sessions Council Chair for the RIDA.

Dr. **Jeffrey Dodge** served as Co-Chair of the inaugural Rhode Island Mission of Mercy which was held on June 2nd and 3rd in the Assisting and Hygiene teaching clinics at the Community College of Rhode Island campus in Lincoln RI. 800 patients were the recipients of more than 1800 dental procedures over the two days.

Dr. **Clark Sammartino** has retired from a career as a distinguished oral and maxillofacial surgeon and has started a second career as a financial planner and advisor.

Dr. **Christine Benoit** is Chair of the State Board of Dental Examiners. Christine and husband and ICD Fellow **Bruce Gouin** held their fourth "free dental day" at their office in Charlestown, RI on August 11. Helping to provide care was ICD Fellow **Rick Walsh**.

VERMONT

Editor: Judi Fisch

The 2012 ICD Convocation Ceremony in San Francisco welcomed two new Fellows from the state of Vermont, Dr. **Gregory Ellis**, who practices general dentistry in Rutland and Dr. **David Angus**, an orthodontist practicing in Burlington. These new inductees join the 29 members of the International College of Dentists from the state of Vermont.

Within the ICD leadership of Vermont, Dr. **Paul Kenworthy** from Essex Junction is our Counselor and Dr. **Jeffrey Berkowitz** from Burlington continues as our Leadership Coordinator.

Discussion ensues about future activities for our state Chapter. We have the upcoming luncheon at the Yankee Dental Conference in Boston and will begin planning for 2013 inductees and state activities.

NEW YORK

Editor: Jeffrey Galler

Hurricane Sandy's flood waters had barely receded from the Jacob Javits Center, when the newly restored facility was inundated with a surge of enthusiastic attendees at the Sunday, November 25, 2012 District 2 Annual Luncheon.

According to District 2 Regent Dr. **Robert Seminara** who chaired the event, the highlight of the luncheon was the address of guest speaker Dr. **Charles N. Bertolami**, Dean of the New York University College of Dentistry. In his timely analysis of "Mid-Level Providers in Dentistry," Dr. Bertolami discussed what is likely to transpire in the near future, why these changes are almost inevitable, and how these changes might affect our profession.

DENTISTRY'S FUTURE

The dean explained that due to economic, demographic, public relations, and public policy factors, some form of "managed care is coming because it has been an inevitable trend over the past decades," and that the "public gets what the public wants," although that result is "not necessarily what it needs or what is best."

In elucidating why he felt that dental therapists were inevitably going to become part of the dental delivery system in the United States, he enumerated factors that can be stipulated as being true: first, there is a perception that there is a significant problem with access to dental care in the United States; second, that news reports of children dying because of untreated dental disease is unacceptable; third, the public will accept a two-tier system of care, where the public will accept that **some** care is better than **no** care at all.

Further, Dr. Bertolami stipulated that what might be true, is that it is unlikely that there will be a significant difference in the quality of care rendered by either a dental therapist or dentist; that the emergence of dental therapists will not lead to competing independent practices; and, that the population will find the

care rendered by dental therapists to be acceptable.

In spite of all these factors, he expressed his strong feelings that the creation of the new, dental therapist position will utterly fail to improve access to dental care. He likened the situation to improved technology in dentistry. The new technology increases the quality of care, but neither increases the efficiency of dental care delivery nor lowers the cost of dental care.

Instead, he explained, the only way to lower the cost of dental services is to lower the cost of labor. And that, he elucidated, is actually the underlying motivation for creating this new, dental therapist position.

Remaining questions that have yet to be determined, according to Dr. Bertolami, are: 1) What will be the scope of their practice? 2) What will be their educational background? 3) Will they require a supervising dentist to be on the premises, or will remote consultation or supervision be permitted?

After analyzing all of the seemingly obvious, and not so obvious, trends present today, Dr. Bertolami concluded that, in his opinion, the result of the inevitable appearance of dental therapists will be that society will continue to have the same exact problems with access to care, but that dentistry will be delivered at lower cost to the public.

LEADERSHIP

In addressing the filled-to-capacity room, Dr. **Chad Gehani**, President of the New York Chapter of the ICD, remarked that this annual luncheon should really be called the "**Anthony Di Mango Luncheon**," in recognition of his decades-long leadership, and in appreciation for his arranging the event annually.

"Dr. Di Mango," said Dr. Gehani, "is a born leader, who is always ready to serve and assist in so very many capacities."

Dr. **Robert Faiella**, President of the American Dental Association, discussed the many challenges facing the profession, and thanked the International College of Dentists, whose "work assures that we are an organization without borders."

Dr. Robert Seminara, Regent of the New York District of the ICD, proudly announced that District 2 had inducted

20 new Fellows this past year. In introducing ICD President Dr. **Michael Kenney**, he praised the president for his sincerity, his leadership, his love for and understanding of what Fellowship actually means, and commended his strategic plan, that is so central to the ICD new global initiatives.

Dr. Kenney discussed the ICD mission statement and goals, and the practical application of the organization's strategic plan.

DISTINGUISHED GUESTS

In a room filled with VIP's, the chair recognized and introduced some of the leadership present.

In addition to American Dental Association President Dr. Robert Faiella, also present were Immediate Past-President of the ADA Dr. **William Calnon**, and ADA Trustees Dr. **Steven Gounardes**, Dr. **Maxine Feinberg**, and Dr. **Charles Weber**.

Other dignitaries who attended the luncheon were Dr. Ernesto Acuna, President of the Pierre Fauchard Academy; Dr. **Deborah Weisfuse**, President of the New York State Dental Association; Dr. **Richard Rausch**, General Chairman of the Greater New York Dental Meeting; Dr. John Halikias, Advisory Chairman of the Greater New York Dental Meeting; and Dr. Robert Edwab, Executive Director of the Greater New York Dental Meeting.

2013 officers for the New York Section of the International College of Dentists are: Regent Dr. **Robert Seminara**, President Dr. **Howard I. A. Lieb**, Secretary-Treasurer Dr. **Anthony I. Di Mango**, and Editor Dr. **Jeffrey Galler**.

DISTRICT 3

PENNSYLVANIA

Editor: Michael Rosella

It is an honor for us to welcome our new Pennsylvania ICD members who were welcomed into Fellowship in San Francisco in 2012: **Frank M. Dankanich Jr.**, **Bryan J. Frantz**, **Mark A. Giallorenzi**, **Joseph R. Greenberg**, **Carl S. Jenkins**, **Joseph T. Kelly Jr.**, **John A. Kokai**, **Christopher John Kotchick**, **David A. Schimmel**, and **Bruce Singer** (Posthumously).

Pennsylvania ICD Class of 2012

We are also proud of the many accomplishments of our very active Fellowship and list some of those 2012 activities below:

David A. Anderson, Assistant Professor of Prosthodontics University of Pittsburgh School of Dental Medicine, was elected Chair of the Western Pennsylvania Section of the American College of Dentists.

Alvin Arzt continues to lecture on Endodontics for the 21st Century. He recently presented at the AES meeting in San Francisco.

Jerrold H. Axler of Chesterbrook has been elected Vice President of the Pennsylvania Dental Association.

Henry Bitar was recently elected Treasurer of the Dental Society of Western Pennsylvania.

James M. Boyle III has been appointed Deputy Regent of Pennsylvania for the International College of Dentists.

Thomas W. Braun, Professor and Dean of the University of Pittsburgh School of Dental Medicine, was the recipient of the 2012 Pennsylvania Dental Association Recognition Award.

Bernard P. Dishler was elevated to the office of President of the Pennsylvania Dental Association at the annual meeting in Hershey in April of 2012. He also gave the Keynote Address at the University of Pittsburgh School of Dental Medicine Annual General Assembly and White Coat Ceremony.

Allen Fielding was the recipient of the 2012 Daniel M. Laskin Award from the American Association of Oral and Maxillofacial Surgery which is given for the Outstanding Pre-doctoral Educator. During his more than 30 year career, Dr. Fielding has helped educate over 5400 pre-doctoral

dental students and over 65 Oral and Maxillofacial Surgery residents at Temple University's Kornberg School of Dentistry and Temple Hospital.

Michael Gans has been elected President of the Dental Society of Western Pennsylvania.

Priscilla H. Hamilton of District 4, but originally from Pennsylvania, has been appointed as Chief of Army Graduate Dental Education and Dean of the Army Postgraduate Dental School. In this position, Colonel Hamilton becomes a member of the ADEA Council of Deans. She is a graduate of the Pennsylvania State University and the University of Pittsburgh School of Dental Medicine. Her list of awards and honors is too lengthy for publication.

Ronald Heier is serving as Volunteer Co-Chair for the first MOM-n-PA event which will be held at the Liacouris Center at Temple University in Philadelphia.

Linda K. Himmelberger has completed her very successful reign as ICD Regent for Pennsylvania. During her years as Regent she was called to serve on and chair several committees of the USA Section. She has now been elected to serve as an International Councilor to the College at Large. Congratulations, Linda! And best of luck with your new position.

R. Donald Hoffman was elected President Elect of the Pennsylvania Dental Association in April 2012 at the meeting in Hershey. He is also the new Vice Regent for Pennsylvania of the International College of Dentists.

Drs. **Jon Johnston**, **Dennis Charlton** and **Andrew Kwasny** attended the Annual Bowser Lecture at the University of Pittsburgh School of Dental Medicine.

John L. Kautz was presented with the Pechan Award at the Annual 2012 3 Rivers Dental Conference.

Stephen Kondis has been elected to the Board of Directors of the Medical Bureau of Pittsburgh.

Raymond Lancione was elected to the Board of Directors of the Medical Bureau of Pittsburgh.

Kenneth D. "Dusty" Loeffler II helped start a General Practice Residency at Lancaster General Hospital. He teaches residents Comprehensive New Patient

Evaluation, Advanced Restorative Prosthetics, and Patient Management. Dusty also had the pleasure of working on a Podcast for the Academy of General Dentistry in July. Its topic was the Treatment of Special Needs or Special Care patients, an area in which he has had a special interest for over 34 years. He is finding the teaching of residents an "incredibly rewarding" experience.

Alex J. McKechnie, who is now 95 years young, was recently honored by the West Shore Country Club where he is a 55 year member. After serving as Secretary for over 50 years, he has been named Secretary Emeritus and has had a golf tournament named after him – The Alex J. McKechnie Member Guest Annual Golf Tournament. He also recently received this email from a former patient: "Doctor, 60 years ago you placed a partial in my wife's mouth that finally needed replacing – she went to 4 dentists who said that they could not duplicate it but finally a local female dentist did so at a cost of \$1200." The one that Dr. McKechnie's lab originally made was made of gold and it cost the patient \$100. The gold was sold, and paid for the new partial!!!!

W. H. Milligan, III was appointed Director of the Center for Continuing Education at the University of Pittsburgh School of Dental Medicine.

John B. Nase of Harleysville has had two articles recently published: One with JL Rutkowski titled "Impact Factors in Scientific Journals: Keeping a Balance for the JOI Readers" in the *Journal of Oral Implantology*, and "The Electronic Dental Record – A Twenty Year Odyssey" in *Dental Economics*. John also gave a presentation at The Commonwealth of Virginia Office of the Medical Examiner titled, "The Family Assistance Center, Victim Identification Program and the Local Forensic Authority", and another presentation at the ADA Annual Session called, "A Practical Guide to Social Media Planning for Dentists." And, with his extra time, he has been elected American Wine Society Regional Vice President for Southeastern Pennsylvania.

Stephen T. Radack, III was recently installed as president of the Erie County Dental Association. This is the second time he is serving in that position having previ-

ously served as president 20 years ago. Dr. Radack is also on the Board of Directors of the Pennsylvania Dental Association Insurance Services Corporation as its treasurer and serves as secretary-treasurer of the Ninth District Dental Association.

Dennis N. Ranalli has been granted Emeritus Faculty Status following his 2012 June retirement from the University of Pittsburgh School of Dental Medicine as Senior Associate Dean

Michael D. Rosella's photographic entry was accepted into the Fifth Juried Biennial Westmorland Museum of American Art Exhibit in Greensburg, PA.

Robert Runzo presented the ICD Student Leadership Award to Ms. Janel Marcelino of the University of Pittsburgh School of Dental Medicine. He also attended the Dr. Felix Mabunay Memorial Lecture on November 9, 2012 at the University of Pittsburgh School of Dental Medicine. The lecture focused on anesthesia, medications, and special needs patients. In addition, Dr. Runzo was elected Secretary/Treasurer of the Western Pennsylvania Section of the American College of Dentists and Secretary of the Dental Society of Western Pennsylvania.

David R. Russell of Millersburg received the 2012 Green Cross Award from the Bethesda Mission in Harrisburg as the Volunteer of the Year for his efforts. Dr. Russell developed the dental clinic at the Mission which has been in operation since the fall of 2010.

Larry Stone has been honored with Life Membership in the ADA and Emeritus status in the AGD. He will also receive his Mastership in the International Congress of Oral Implantologists this December at their meeting in New York City.

Donald Stoner was elected to the Board of Directors of the Medical Bureau of Pittsburgh.

Bruce Terry, Editor of the Pennsylvania Dental Association, climbed 22,841 foot Mt. Aconcagua in the central Andes of Argentina on a 21 day expedition. This was the third of the seven highest summits on each continent that Bruce has climbed. He also serves on both the board of Delta Dental of Pennsylvania and of the ADA CE Online.

Charles R. Weber was the recipient of the 2012 Distinguished Service Award from the PDA. The Pennsylvania Dental Association's most prestigious award is given to a member dentist who has given unselfishly to the community and demonstrated what it means to be a PDA member and volunteer dentist.

S. Rand Werrin and Richard DeFilippo performed at dancing with Pittsburgh celebrities at the Westin Hotel. The event raised a large amount of money for the Catholic Free Health Clinic, and Pittsburgh Kiwanis Foundation.

Dennis Zabelsky was elected President Elect of the Dental Society of Western Pennsylvania.

DISTRICT 4

DISTRICT OF COLUMBIA

Editor: George P. Thomas

Editor George P. Thomas, Regent Margaret Culotta-Norton, Senior Dental Student Korosh Armakan, and Deputy Regent Dennis Stiles.

Two thousand twelve was another productive year for the District of Columbia Chapter of the International College of Dentists. Our Chapter Fellows were very well represented in the ADA's Give Kids a Smile Day in February and we continue to participate in the Peace Corps initiative. The ICD-sponsored "Leadership Summit" at the Howard University Dental School was a great success and the speaker was Dr. **Dennis Stiles** our Deputy Regent. The purpose of this summit was to encourage the students to become active and involved in both their community and in their profession. Students were presented with the Stephen Covey Book, "Seven Habits of Highly Effective People" and lunch was provided.

Milestones: Drs. Carol Turner, Registrar USA Section; Margaret Culotta-Norton, Regent 4th District; George P. Thomas; Marcel Carmi; Clarence C. Lindquist; and Thomas P. Williams

On May 2, 2012 the D.C. Chapter and the Metropolitan Section of the American College of Dentists had a combined dinner meeting. The speaker was Mr. Douglas F. Gansler, the Attorney General of Maryland, who discussed the current controversies of DNA testing in violent criminals and the banning of arsenic in the chicken feed. We invited the ICD Dental Student Award winner from Howard University to this dinner and acknowledged his accomplishments.

The ICD DC Chapter was honored to be a participant at the White Coat Ceremony held in September 2012 at the Howard University College of Dentistry. Dr. **Margaret Culotta-Norton**, our District 4 Regent, spoke at the ceremony.

Our chapter proudly initiated four new candidates for Fellowship in ICD. They are: Dr. **Robert Argentieri**, Dr. **Robert Emery**, Dr. **Patrick Grogan**, and Dr. **Stan Mayer**. We salute their achievements and are delighted to welcome them as Fellows.

Dr. George Thomas, Editor, DC Chapter, with new Fellows: Drs. Stan Mayer, Robert Argentieri, Robert W. Emery, Patrick Grogan, and Dr. Margaret Culotta-Norton, Regent District 4

A joint ICD/ACD meeting was held November 14, 2012. We had a stimulating presentation from Mr. Tom Spangler,

Director of Legislative and Regulatory Affairs of the ADA regarding the potential effects of the Affordable Care Act on Dentistry. During the meeting some of our members were recognized for their membership milestones. They were presented with fifteen and twenty-five year pins.

MARYLAND

Editor: M. Pitkin Johnson, Jr.

The Maryland Chapter, under the capable leadership of Deputy Regent **Edwin Morris**, continues to be a strong component within a very interesting and diversified District 4. Five new Fellows were received into membership in San Francisco, where several Marylanders played a major role at the site of the ADA Convention. The USA Section of the ICD was led in 2012 by **W. Michael Kenney**, who introduced many new initiatives for our organization's future growth. Like all successful men, credit must be given to a supporting spouse, and Peggy has certainly been Mike's best cheerleader in his rise to President of the USA Section.

(Left): Mike and Peggy Kenney, San Francisco Convocation, October 2012.

(Right): Also, in San Francisco, the ADA House of Delegates applauded Tom Soliday who stepped down after 10 years as Speaker.

Finally, to conclude the year, the Annual Business Meeting of the Maryland Chapter was held at the Columbia Sheraton Hotel on November 13, 2012 with Dean **Christian Stohler** as guest speaker. The meeting included a champaign toast to **Mike Kenney** and the awarding of 15-year pins to **Sam Blum**, **Fred Magaziner**, **Bill Martin**, **Fred Preis**, and **John Davliakos** (absent). Regretfully, a 25 year pin to honor **H. Berton McCauley, Jr.**, age 98, could not be awarded because he passed away a few weeks prior. Bert had been Chief of Dental Health in Baltimore from 1949 through 1975. His other

DISTRICT 7

INDIANA

Editor: Marc Smith

The Indiana Chapter of the International College held its first-ever joint luncheon with the Indiana American College on Friday, June 8, 2012, in conjunction with the Indiana Dental Association Annual Meeting. Our guest speaker was Dean **John N. Williams** who spoke on several points of leadership and about plans to expand the Indiana University School of Dentistry. The combined meeting was well received and plans for a joint Breakfast are underway for 2013.

Our Indiana Chapter had the unexpected opportunity to help Winston Fiore, a young, former Marine Sergeant veteran of Afghanistan and Senegal. Winston planned to raise money for the International Children's Surgical Foundation by walking on a 408 day, 5000 mile walk through Vietnam, China, Philippines, Malaysia, Brunei, Thailand and Laos.

Winston Fiore

The ICSF provides free cleft lip and palate corrective surgery for indigent children in third-world countries. His original goal was to raise \$10,000, thus providing corrective surgery for about 40 children. Toward the end of his trip he had raised over \$65,000, well on the way toward a hoped-for \$75,000 helping nearly 300 children! More information on Winston's amazing trek can be seen at smiletrek.org.

We were honored to have two new Fellows join our ranks in San Francisco, **Lorraine Celis**, chair of the very active IDA Communications Committee and **Jack Drone**, IDA Editor. Congratulations and welcome to both!

We are pleased to announce the addition of new leaders in both the 7th District and the Indiana Section. **David Holwager**, former Deputy Regent from Indiana will step into the 7th District Regent's role so ably performed over the past several years by **Jeanne Nicolette** from Ohio. **Dan Fridh**,

GEORGIA

Jane Puskas

Congratulations to District 5 and to Editor, **Jane Puskas** of Atlanta, Georgia for receiving the award for the best USA Section District or Chapter newsletter for 2011. The selection was made by the Journalism Committee following the spring 2012 Savannah meeting and Dr. Puskas received the award at the annual meeting in San Francisco. The *Keynews* is sent to all District 5 Fellows.

Dr. Puskas says that editing the *Keynews* opened her eyes to the incredible projects that Fellows were involved with in District 5. She calls for increased participation from the three states in District 5: Alabama, Georgia and Mississippi. And she points out that Fellowship in the ICD promotes and supports many programs and collaboration with dentists internationally.

DISTRICT 6

Big fish trophy winner Fellow K. "Lum" Young of Camdenton, MO flanked by his son and fishing guide Randy Young (left) and his partner Dr. Jake Lippert.

Fellow Tom Nelson of Springfield, MO receiving his golf trophy at our 'formal' banquet in Kimberling City on April 24, 2012, surrounded by (left to right) Fellow Warren French, Fellow Bob French, BBQ Guru Zach Clark, Dr. Jake Lippert, Fellow Mike Price, and Fellow Dan Young.

The Maryland Chapter annually presents the Clendenin Award to the most outstanding academic achiever at the U of MD Dental School. The 2012 recipient was Devon Allison, who is a DDS/PhD student.

A highlight of the Chapter's Annual Meeting was a presentation by USA President Mike Kenney of a Presidential Citation to Michael Belenky for all the work that he did to facilitate the ICD's Student International Health Initiative.

accomplishments were Past President of the Academy for the History of Dentistry, historian of MSDA, and a generous supporter of the National Museum of Dentistry.

Many more Fellows of the Maryland Chapter are deserving of recognition in 2012; suffice it to say that with a membership of only 98, the Maryland Chapter is proud of all of its Fellows, as well as proud of the contributions of the USA Section.

DISTRICT 5

ALABAMA

Editor: Jane Puskas

Fifteen Alabama Fellows met on Saturday, February 4, 2012 in Birmingham in conjunction with the University of Alabama's Dental School Alumni weekend. They received updates on leadership development efforts involving ICD with the dental school.

former Indiana Leadership Coordinator will assume the Deputy Regents responsibilities.

Pictured in the back row are: **Marty Szakaly**, Counselor; **David Holwager**, 7th District Regent-elect; **Dan Fridh**, Deputy Regent-elect; and **Jack Drone**, new Fellow. In the front row are **Jeanne Nicolette**, 7th District Regent; and new Fellow, **Lorraine Celis**.

OHIO

Editor: Jeanne Nicolette

Fellows were invited to attend the ICD Dessert Reception held each year the evening before the Ohio Dental Association meeting convenes. Current Fellows, Fellows-Elect and guests were invited to the gathering. Pictured enjoying the evening are L. Don Shumaker and 2012 inductee Canise Bean.

Ohio Dessert Reception

The annual ICD Convocation was held on Friday, October 19, 2012 in San Francisco in conjunction with the American Dental Association annual meeting. Congratulations to the new Fellows from Ohio who were inducted: **F. Charles Arens** of Worthington, **Canise Y. Bean** of Columbus, **Loren E. Frumker** of Willoughby,

Thomas F. Graham of Canton, **Hans Guter** of Circleville, **John N. Kramer** of Martins Ferry, **Steven E. Parker** of Massillon, and **George T. Williams** of Canton. *Please see the Seventh District congratulatory ad in the back of this publication.*

The Callahan Celebration of Excellence is held yearly at the Ohio Dental Association annual meeting. Honors went out to two of our Fellows this year. **Dominic Bitonte** received the ODA's Achievement Award. He was given the award to recognize both his professionalism and his dedication as a philanthropist.

Fellow **Ron Lemmo** was awarded the Distinguished Dentist Award, the highest award given by the Ohio Dental Association. Ron has been a tireless leader for organized dentistry and has served in an exceptional number of leadership positions in the Cleveland Dental Society, the Ohio Dental Association and the American Dental Association.

Continuing on in his strong leadership track, Ron was elected Treasurer of the American Dental Association by the 2012 ADA House of Delegates. It was an exciting moment for Ron and the Seventh District and we are very proud of his accomplishment.

Each year the ICD presents a Student Leadership Award to one student at every dental school in the country. The school faculty selects the student who shows outstanding leadership and academic and professional growth during their dental student experience. The Ohio Chapter of the ICD extends its congratulations to this year's winners: **Brittney Dru Andress** of Case Western Reserve University School of Dental Medicine, and **Anne K. Johnson** of The Ohio State University College of Dentistry.

The White Coat Ceremony at the CWRU School of Dental Medicine was held on July 30, 2012. Dean **Jerold Goldberg** welcomed the men and women of the class of 2016 to the profession. As part of the ceremony **Chris Connell** delivered the ICD's message of leadership and professionalism. Of the seventy-four students in the class, eleven of them are legacies. Best wishes to all of the students, and parents, of the class of 2016.

The Ohio Section and The Seventh District of the ICD will see some changes in leadership in 2013. **David Holwager** of Indiana is the new Regent, replacing **Jeanne Nicolette**. Outgoing Vice-Regent **Marc Smith** is replaced by **Billie Sue Kyger**, and the new state Deputy Regents are **Dan Fridh** of Indiana and **Denise Hering** of Ohio. Pictured are Vice-Regent **Billie Sue Kyger** and past Regent **Jeanne Nicolette** at the 2012 Convocation ceremony.

Deputy Regent Denise Hering of Ohio with then Regent Jeanne Nicolette.

DISTRICT 8

ILLINOIS

Editor: Terri S. Tiersky

Eighth District Regent Dr. Pete Paulson, UIC Dental School Dean Dr. Bruce Graham and Eighth District Vice Regent Dr. Terri Tiersky

The Eighth District was the proud host of a Humanitarian Seminar on Volunteerism. A recent study indicated that a significant number of our Fellows wanted information on how to get involved in various humanitarian dental projects. In response to this need, the seminar titled "International Volunteer Dental Projects: What's It All About" was held in Chicago on February 22, 2013, in conjunction with the Chicago Dental Society Midwinter Meeting. The speakers

were Dr. **Francis (Frank) Serio** along with Eighth District Fellow Dr. **Mark Humenik**. The seminar highlighted the nuts and bolts of organizing various dental humanitarian programs. The eighth district was very pleased to be able to hold this seminar in Chicago, the very first of its kind. We extend our sincere gratitude to the Chicago Dental Society for their gracious support of this event, and look forward to many more of its kind.

In Keeping with the theme of volunteerism, the Illinois State Dental Society Foundation, along with the CURE Network, hosted the second Mission of Mercy in Illinois. The two day event took place June 8-9, 2012 at the Lake County Fairgrounds. The event was co-chaired by two of our eighth district Fellows: Dr. **Mark Humenik** of Northbrook, Illinois; and Dr. **Bradley Barnes** of Normal, Illinois. Over 2,000 patients were treated during the mission, with nearly 1,300 dental encounters. Many of our District Fellows were among the volunteers at this Mission. The planning is already taking place for our next Mission of Mercy to be held in Peoria, Illinois in 2014.

The International College of Dentists Convocation took place in beautiful San Francisco on Friday, October 19, 2012. Our new Fellows were called forth by our Eighth District Regent, Dr. **Peter Paulson**. We are proud to welcome our new Fellows to the College: Dr. **Alice G. Boghosian**, Niles, Illinois; Dr. **Maria Fe Corpuz-Bato**, Gurnee, Illinois; Dr. **Dean W. Drake**, Fairview Heights, Illinois; Dr. **Gary M. Fischer**, Collinsville, Illinois; Dr. **Denise D. Hale**, Palos Hills, Illinois; Dr. **Gary R. Herberger**, Canton, Illinois; Dr. **James M. Maragos**, LaGrange, Illinois & Dr. **Randall C. Markarian**, Swansea, Illinois. Congratulations to you all and welcome!

Illinois ICD Class of 2012

The White Coat Ceremony at Southern Illinois University School of Dental Medicine

We honored our new Fellows that evening in San Francisco with dinner and dancing alongside our colleagues from around the globe. We again honored them at our annual New Fellow dinner that is held along with our Eighth District American College of Dentists colleagues. The dinner took place on November 8, 2012 at the DoubleTree by Hilton Hotel in Oak Brook, Illinois. We enjoyed an interesting talk by our own Dr. **Robert J. Manasse**. Dr. Manasse is a clinical associate professor in the Department of Orthodontics at the University of Illinois at Chicago, and is also a private practitioner of Orthodontics. He has travelled and lectured both nationally and internationally, and we were treated to a lecture and slides from his latest travels to China.

We were happy to again spend time with our ACD colleagues over breakfast on Saturday, September 8, 2012 in Schaumburg, Illinois in conjunction with the Illinois State Dental Society Annual Session. The speaker for the breakfast was Dr. Thomas R. Prince, Professor Emeritus of Health Industry Management and also Accounting Information and Management at the Kellogg School of Management at Northwestern University. It is always a pleasure to spend time with our colleagues and friends throughout the state, while at the same time broadening our horizons!

Like any organization, ICD will ultimately depend on our younger generations to keep the group thriving. Our students are our future leaders and the two of our Illinois dental schools held White Coat Ceremonies to honor those students whose bright futures are ahead of them. The University of Illinois at Chicago held their White Coat ceremony on August 24, 2012 in the student center at the dental

school. The class of 2016 proudly received their white coats, as did the International Dentist Program class of 2014, but not before hearing inspirational remarks from our Regent Dr. **Peter Paulson**, as well as our new Deputy Regent Dr. **Susan Bishop**. Dr. Bishop spoke on behalf of the Illinois State Dental Society Foundation.

Southern Illinois University School of Dental Medicine hosted their White Coat Ceremony for the Class of 2016 on October 6, 2012 at the Hatheway Cultural Center, Lewis and Clark Community College in Godfrey, Illinois. Dr. **Robert Bitter**, Immediate Past President of the Illinois State Dental Society and also an ICD Fellow, gave the keynote address. We congratulate our students, and wish them luck in all of their future endeavors.

There are two students who warrant special recognition. These students were awarded the ICD Student Leadership Awards from each of their respective dental schools. We are proud to congratulate Shane D. Ruggless from Southern Illinois University school of Dental Medicine, and Scott Schwartz from University of Illinois at Chicago.

The Chicago Dental Society Midwinter Meeting is the backdrop for our annual ICD/ACD luncheon. This event brings not only a large number of our Fellows, but also several dignitaries from both ICD and ACD, as well as the American Dental Association. We were welcomed with remarks given by then Chicago Dental Society President Dr. **John Gerding**. In addition to camaraderie, this luncheon gives us the opportunity to present the Thaddeus V. Weclaw Award. The 2012 recipient of this honor was Dr. **Chauncey Cross** of Springfield, Illinois.

Dr. Cross has served the dental profession at the local, state and national levels.

INTERNATIONAL COLLEGE OF DENTISTS

He has been involved in the monitoring of governmental and legislative actions that may have an effect on our profession in both Illinois and Washington, D.C. Dr. Cross served on the ADA Council on Governmental Affairs from 1988-1992, serving as the Chair from 1991-1992. He was ADA First Vice President from 1997-1998. He has served in both the ADA and the ISDS House of Delegates. The Illinois State Dental Society honored Dr. Cross in 2006 for his 35 years of service by naming him an honorary President of the Society. Dr. Cross is only the second member to receive this honor. Not only has Dr. Cross served our profession tirelessly, but he also serves his community. He has provided leadership to his Church in Springfield; and is involved with the Sangamon County Heart Association, the Springfield School Board Advisory Committee, The Boy Scouts of America and the Kiwanis Club of Springfield. Congratulations to Dr. Chauncey Cross, a most deserving Weclaw Award recipient. We are blessed to have you in the Eighth District!

Dr. Julie Paulson, Eighth District Regent Pete Paulson, Weclaw Award winner Dr. Chauncey Cross and his wife Pat.

DISTRICT 9

MICHIGAN

Ron Paler: Regent

Michigan ICD has been very active and busy with activities and programs. Our signature project is the Student Exchange Program. In 2012 we sent two students to Barú, Brazil and in return hosted five students from Brazil in November. Lauren Ehardt, and Priyanka Iyer, and a faculty member, Dr. Katherine Kelly had the opportunity to visit the University of Sao Paulo, School of Dentistry, and the internationally renowned

Michigan International Exchange Students had the opportunity of observing cleft palate surgery in Brazil. To see more about the trip of the Michigan dental students who visited Brazil see the You Tube video created by dental student Lauren Ehardt at: <http://www.usa-icd.org/information/newsletter/news09/district09-MI.htm>

Hospital for Rehabilitation of Craniofacial Anomalies in Barú.

Your leadership has been working this past year on an Applied Strategic Plan that incorporates our three key elements: Integrity, Leadership, and Service. Our facilitator was ICD Fellow Bob Frazer, an expert

The Michigan ICD played an important role in helping to host the United Nations Global Health Conference in November at the University of Michigan. Students and faculty came from a variety of countries including Brazil, Colombia, Ghana, Mexico, Panama, Spain and the UK. The delegates were hosted by 9th District Regent Ron Paler (rear, 3rd from right) who served as the Arrangements and Tour Guide during their visit.

Trent Lally of UDM receives the ICD Leadership Award from Fellow Steve Harris.

in Strategic Planning. The process moves from Vision through Core Values to Mission and finally a Business and Contingency Model. The ASP was approved by the BOR and is a working document.

The Fellowship Orientation Program Committee has produced a six minute video for showing at the Candidate Induction Convocation and for use by all state and international constituents. I am proud to report that Michigan is well represented in the video and you will recognize many of our Michigan Fellows in the video.

We are a unique organization that has had a big impact improving oral health care throughout the world. The Michigan ICD donated \$5,000 toward MOM.

Regent Ron Paler delivering a congratulatory message at the University of Michigan 2012 White Coat Ceremony.

District 9 Regent Ron Paler congratulating 2012 Leadership Award winner, Ricardo Lugo of the University of Michigan School of Dentistry.

DISTRICT 10

MINNESOTA

Editor: Bill Stein

At "Zero Dark Thirty" on the last day of the Star of the North Meeting, the members of the Minnesota Chapter of the International College of Dentists sleepily made their way to the Archbishop John Ireland Room in

the historic St. Paul Hotel for their annual meeting.

New members were introduced; once again no old members had died.

There was a shakeup in the hierarchy of the organization, the **laissez-faire** doctrine of the past where the President served as a Pope or Supreme Court Justice was overturned and a structured term of office for officers was adopted. The following courageous members stepped forward:

- Bruce Bates**...President
- Loren Taple**...President-Elect
- Pam Erickson**...Secretary-Treasurer
- Tim Langguth**...Past President
- Tom Fellman**...District 10 Regent

Officers: Regent Tom Fellman, Ex Officio Bashar Bakdash, President-Elect Loren Taple, President Bruce Bates, Secretary-Treasurer Pam Erickson.

The officers were duly sworn in by Dr. **Bashar Bakdash**.

The Minnesota Chapter takes great pride in its support of our dental students serving as foreign exchange students.

This year we heard reports from:

Deepthi Mundra, a student raised in India and settled in Trinidad, who spent her internship in Germany. She was amazed at the lengths the teachers would go to save seemingly hopeless teeth, through some extraordinary endodontic technique not taught in our dental schools.

Ryan Mueller interned in Greifswald, Germany. Ryan was pleased to explore his German heritage. He especially was impressed with the clinical techniques of his colleagues and enjoyed travelling throughout the country and visiting the home town of his great-grandparents.

Maria Bulat interned in Aarhus, Denmark. Maria has lived in Kyrgyzstan, Russia and the U.S., so she is used to culture shock. Denmark was quite pleasant for

her, especially since most Danes are fluent in English rather than Kyrgyzstani. Maria reports that 90% of the dental students are female. She states the drop-out rate by the fifth year of dental school is 20%. The class days went smoothly except for one week each month where there were intense discussions on treatment plans. She notes that Danish dental students learn a more varied number of procedures such as implant placement and surgical and orthodontic procedures that are reserved for specialists in the U.S.

We look forward to another successful year for the Minnesota Chapter of the International College, we hope once again for a minimal loss of life for our geriatric members.

Respectfully submitted,
Bill Stein

NEBRASKA

Editor: James Jenkins

Two thousand twelve marked another successful year for the International College of Dentists Nebraska Chapter. Our current roster of officers is: Dr. **Larry Haisch**, Deputy Regent; Dr. **Mark Minchow**, President; Dr. **Paula Harre**, Treasurer; Dr. **Deb West**, Secretary; Dr. **James Jenkins**, Editor; and Drs. **Henry St. Germain**, **Joan Sivers**, and **Myron Pudwill**, Counselors.

The Nebraska Chapter continued its philanthropic efforts through the year, which included sponsoring student scholarships for deserving senior dental students at the Creighton School of Dentistry and the University of Nebraska Medical Center College of Dentistry. Research scholarships were also supported for both institutions. The Nebraska Chapter of the ICD continued its support of the Nebraska Mission of Mercy (NMOM), a charitable dental clinic for our state's less fortunate. The NMOM, held in Alliance, Nebraska in July of 2012, and treated about 750 patients and provided over \$425,000 worth of free dental care to the needy of the western part of our state. Many Nebraska Chapter ICD dentists participated in the wonderful two day event. In addition to participating in our local and statewide charitable dental clinics for the betterment of mankind, many Nebraska Chapter ICD

dentists volunteered in national and international dental charity clinics in 2012. These charitable efforts included Mission of Mercy clinics in other states and foreign country dental charity efforts, including an ongoing outreach in Hinche, Haiti.

The Nebraska Chapter of the ICD is looking forward to August of 2013, where we are supporting the Nebraska Mission of Mercy which will be held in Lincoln, Nebraska.

We were happy to accept into Fellowship this year Dr. **Carol M. Murdock** and Dr. **Sundaralingam Premaraj**. Dr. Murdock is an Associate Professor and Chair of the General Dentistry Department at the Creighton University School of Dentistry. Dr. Premaraj is an Associate Professor and Director of the Orthodontic Program at the University of Nebraska Medical Center College of Dentistry. We are honored to have each of them among our ranks as a Nebraska Chapter ICD Fellow.

(Left): Dr. Carol M. Murdock

(Right): Dr. Sundaralingam Premaraj

We are looking forward to a very successful 2012; continuing our philanthropic and charitable activities, increasing the number of our Fellows, and continuing to fulfill the mission of the International College of Dentists.

NORTH DAKOTA

Editor: Gregory J. Johnson

The North Dakota Chapter of the ICD met in Bismarck, North Dakota on September 14, 2012 in conjunction with the North Dakota Dental Association. This year an ICD member, **Mike Goebel** was awarded the NDDA Outstanding Achievement Award. The Outstanding Achievement Award was established to recognize members of the association who have made monumental contributions of service to

Dr. Mike Goebel received the "NDDA Outstanding Achievement Award". Presenting the award is his son, Dr. Bryce Goebel.

the dental profession, to their community, or to humanity in general.

Mike Goebel maintains a pediatric dental practice with his son Bryce in Bismarck. Bryce is pictured presenting the award to his father. Dr. Goebel is well respected in North Dakota for his dedication to providing compassionate care to children regardless of their socioeconomic status or home situation. He has worked with the dental association in helping to guide the Health and Human Services Department on dental reimbursement so that children are given priority. Mike Goebel writes: "I see the innocence of children and their lack of dental experiences as an opportunity to introduce dentistry as a pleasant part of health care. Each age provides a different challenge and reward. I honestly love the very young children as much as the seasoned school-aged children." Karen and Mike have four children. Drew will join his father and brother as a pediatric dentist in July.

North Dakota Class of 2012: From the left - 10th District Regent Tom Fellman, Sundaralingam Premaraj of Nebraska, Brad Kasson of North Dakota, Carol Murdock of Nebraska, John (Jay) Anderson of North Dakota, Michael Hipp of Iowa, Roger Amundson of North Dakota, and Lori Larsen of South Dakota

The members of the North Dakota ICD voted to donate \$1500 to the North Dakota State College of Science Dental Department for their clinic renovation. **William Hunter** has completed his term as our deputy regent. Thank you Dr. Hunter. **Kristin Kenner** of Devils Lake, our past treasurer, was elected as our new Deputy Regent. **John Clayburgh** of Grand Forks, was elected as the new treasurer/counselor. **Tom Fellman**, Fargo, continues to serve as the District 10 Regent. The North Dakota ICD remains committed to the Chogoria Hospital Dental Clinic Project. This project in Kenya, Africa has developed under the guidance of our past Deputy Regent **William Hunter**. The North Dakota Constituency welcomes our new members: **Brad Kasson**, Fargo, **Jay Anderson**, Grand Forks, and **Roger Amundson**, Grand Forks.

SOUTH DAKOTA

Editor: Curtis Johnson

Tom Peterson and wife, Sandi, Sioux Falls, continue to spend time traveling and enjoying friends and family. Retirement seems to be agreeing with the Petersons!

Mel Thaler and his wife, Loo, have joined the Petersons in retirement and plan to spend a lot of time traveling and (of course) playing golf.

Former South Dakota Dental Association Executive Director and Honorary ICD Fellow, **Trudy Feigum**, continues to enjoy her retirement of 14 years with her husband, Tom. They reside right off the Chesapeake Bay in Virginia and continue to enjoy sailing, kayaking, walking and traveling by car to visit children and grandchildren. Annually, the Feigums drive to the Four Freshmen Society conventions at different sites around the nation. Their two sons, Craig and Christopher, and their families reside in Minnesota and Virginia, respectively. Craig is involved with the current Bakken Field oil boom, hauling prefab houses and office structures to North Dakota and Canada from Minnesota. Christopher continues his opera career, performing twice this year at the Met. He was performing there when Hurricane Sandy passed through New York City. The performance (ironically, "The Tempest") went on as scheduled.

Lori Larsen

At the ICD-USA Section Annual Convocation in San Francisco in October, **Lori Larsen** of Sioux Falls was inducted into the College. Also at the October meeting of the Board of Regents in San Francisco, **Curtis Johnson**, Scotland, was elected President-Elect of the USA Section.

A number of South Dakota ICD Fellows have joined other South Dakota Dental Association members to participate in the "Smile with PRIDE" project, putting more volunteers and contract dentists in Indian Health Service clinics around the state. Sioux San IHS Dental Clinic in Rapid City, Rosebud IHS Dental Clinic and St. Francis Mission Dental Clinic on the Rosebud Reservation and the Head Start program on the Standing Rock reservation have been identified as the four volunteerism sites for 2013. During each event a handful of dentists, dental assistants and dental hygienists will volunteer for two or three days at each site. Ultimately, the SDDA plans to replicate the events across all nine reservations at various times of year. The volunteerism project goes hand-in-hand with a larger project that includes addressing some of the worst oral health disparities in the nation through prevention and education. The "Circle of Smiles" project will focus on oral health education and prevention among young children, their parents and people with diabetes. The goal of the volunteerism project is to address the backlog of restorative care that likely will be uncovered by the hygienists and oral health coordinators doing oral health education on the reservations. Placing SDDA volunteers in IHS facilities creates a sustainable plan for addressing some of the access issues on the reservations. The long-term goal is to develop relationships between the volunteer dentists and the sites where they volunteer, with the hope that the relationship would lead to standing invitations to volunteer, or even work toward a contract or employment situation.

At the South Dakota Dental Association Annual Meeting in Sioux Falls

in May, 2012, **Rich Meyer**, Rapid City, was elected President-Elect of the SDDA. **Mark Bierschbach** of Milbank will serve on the Board of Trustees as Immediate Past President. **Michael Houk**, Sioux Falls, was presented with the prestigious SDDA Humanitarian Award in recognition of his humanitarian efforts in Chile.

DISTRICT 11

IDAHO

Deputy Regent: John Kriz

“Smile of Excellence” awards were presented to two notable volunteers of the Coeur d’Alene area at the ICD Breakfast in Coeur d’Alene at the Idaho State Dental Association annual meeting. These awards are given annually from the Idaho chapter of the ICD.

Seven new Fellows were inducted in San Francisco. Deputy Regent John Kriz received the Deputy Regent of the Year award with \$1,500 stipend. Dr. Kriz donated the \$1,500 to the ICD Foundation. A minimum of three new Fellows will be inducted in New Orleans. The Idaho ICD will meet July 15 at the Idaho State Dental Association annual meeting in Boise where “Smile of Excellence” awards will be presented.

WASHINGTON

Editor: Richard Mielke

This year several Fellows of the Washington Chapter received recognition for outstanding service to often-neglected segments of our population.

WSDA Citizen of the Year Peter Lubisich with his family.

Recently inducted member **Peter Lubisich IV** was named Citizen of the Year by the Washington State Dental Association for his work to improve access to care for low-income children. This award is given to a member of the WSDA for a significant contribution to the public outside of organized dentistry. Co-founder of his local Give Kids A Smile event, Dr. Lubisich has chaired it ever since. Childrens’ Dental Health Day involves dozens of dentists and their staff members, as well as hygienists and students and has enabled 300 children to be seen and treated in a single day, with Dr. Lubisich doing most of the pre-screening. He is also the dental director of the local Free Clinic, which provides care to children year round. Extensive or difficult cases can be referred to nearby Oregon Health Sciences University, where Dr. Lubisich is a part-time instructor of pediatric dentistry. In large part due to his efforts, Southwest Washington no longer has a significant access issue for children. Dr. Lubisich has also been part of the group which founded the Oral Health Initiative – patterned after Project Access – to involve local dentists in caring for low-income adults.

Theresa Cheng, caring for our returning vets and families.

Also a 2011 inductee and a past WSDA Citizen of the Year award recipient, **Theresa Cheng** was recognized by the WSDA in a *WSDA NEWS* article about her efforts to bring dental care to returning veterans and their families.

After reading in *The Seattle Times* about a badly wounded soldier coming home from Iraq, Dr. Cheng felt a call to action. She and her associate dentist now see about 30 of these patients every year on the day before Thanksgiving. Over the past five years, she has recruited a sizeable number of dentists to join her in this project, including one in Michigan! Surprisingly perhaps, one obstacle to the growth of this program was government red tape. Along the way, the participating dentists have collectively learned about post-traumatic stress disorder and how to keep affected vets comfortable in a dental setting. Dr. Cheng is

not new to helping victims of trauma. Her WSDA award in 1998 was in recognition of her care for victims of domestic violence.

WSDA President
Danny Warner

It’s a big leap from the Alaska bush to the presidency of the WSDA, but **Danny Warner** did just that, assuming the post in September. Dr. Warner began his career as a public health dentist flying to remote villages in Alaska, which often had no running water. After moving back to Washington State, he became involved first in local and then statewide leadership positions. He has worked especially hard to open lines of communication between dentists and state legislators, who regularly consider issues of vital importance to our profession with little understanding of the eventual consequences of the action they may take.

Serving with Dr. Warner are Fellow officers **David Minahan**, **Greg Ogata**, **Bryan Edgar** and **Rodney Wentworth**.

For his pioneering work in the field of dental fears, **Peter Milgrom** has received the ADA’s 2012 Norton M. Ross Award for Excellence in Clinical Research. In presenting the ADA’s top research award, then ADA President **William Calnon** explained that the significance of the award is that it acknowledges research that has been translated into clinical practice. Dr. Milgrom, a long-time professor and researcher at the University of Washington School of Dentistry, also co-founded our state’s Access to Baby and Child Dentistry program for low-income youngsters.

Also at the UW School of Dentistry, **Joel Berg** has been chosen dean after a nationwide search. Dr. Berg was previously chair of the school’s pediatric dentistry department and is president of the American Academy of Pediatric Dentistry.

In other national news, **Linda Edgar** is Academy of General Dentistry national president.

At our annual breakfast meeting in Seattle during the Pacific Northwest Dental Conference the student awards were announced. These go to students at the UW

to recognize leadership and achievement. The ICD Leadership Award went to Brittany Dean, while Stona Jackson and Alexandra Cristescu received \$1500 Burns Guthrie Memorial Scholarships. The scholarships are named for the late Deputy Regent, who was often recognized for his leadership and dedication to our profession.

Stona Jackson (left), and Alexandra Cristescu, Burns Guthrie scholarship winners with then Deputy Regent David Houten.

Leadership changes were also a part of our year. **David Houten** moved up to District 11 Vice-Regent and **Lorin Peterson** became our new Deputy Regent. **Dexter Barnes** is now Vice President of the ICD USA Section.

DISTRICT 12

ARKANSAS

Deputy Regent: Niki Carter

The Arkansas State Dental Meeting was held in April and two ICD members were honored for outstanding service.

Terry Fiddler was recognized for his extraordinary service to the dental profession and the citizens of our state as chairman of the AR Mission of Mercy. The Board of Directors of ARMOM Incorporated presented him with an award of recognition.

Herman Hurd was presented the Distinguished Service Award given by the AR State Dental Association, the highest award that a colleague can receive for past years of service to our profession.

DISTRICT 13

CALIFORNIA

Editor: Donna B. Hurowitz

NEIL LOVERIDGE HONORED IN ANAHEIM

The ICD and the ACD held their spring award breakfast in Anaheim May 4, 2012. The event honored **L. Neil Loveridge**, DDS, and the ICD Student Leadership Awardees. Special guest speaker was **Alvin B. Rosenblum**, DDS, professor at the Ostrow School of Dentistry at USC.

Dr. Loveridge, our immediate past Regent, was presented with his award for service to ICD and to dentistry by Regent **Wayne Del Carlo**. Many of us did not know that Loveridge was a B-47 pilot during the Korean War. A 1962 graduate of UOP, he practiced 42 years in Carmichael. At CDA he served as trustee and Speaker of the House of Delegates. He was awarded the Distinguished Member Award by our Sacramento component in 1983 and the ACD Fleming award for meritorious service in 2005. For ICD District 13, Dr. Loveridge served as Editor, Deputy and Vice Regent, and Regent. He is still involved in dentistry with our honorary organizations and in his volunteer work.

Dr. Rosenblum took the audience on a journey, as he described his own educational path and dentistry's ethics-related history during the past three decades. Rosenblum led us from the Federal Trade Commission's influence and the busyness problem of the 1980s through today's issues of increasing student debt and CODA's guidelines for faculty. Today we have a new and improved CODA standard for a systematic teaching program for ethics. We also have the

American Society of Dental Ethics and the Student Professional and Ethics Club at USC, a format copied by most other dental schools. Dr. Rosenblum encouraged all of us to learn, as he has, from the history of applied teaching of ethics.

DISTRICT 13 NEW FELLOWS

California ICD Class of 2012:

Top row left to right: Antonio Cucalon III, San Francisco; Charles Dennis Hasse, Newport Coast; William Craig Noblett, Berkeley; Evangelos Rossopoulos, Corona; Gary D. Sabbadini, Pinole; Alan Robert Stein, Northridge
Bottom row left to right: Tim Silegy, Long Beach; Ruchi K. Sahota, Fremont; Carliza Arevalo Marcos, San Carlos; Gail H. Duffala, San Francisco; Alan Scott Herford, Loma Linda; Kenneth Yoshitada Kai, San Jose

DELEGATES REPRESENTING 122 COUNTRIES CONVERGE ON SAN FRANCISCO

International President **Garry W. Lunn** and USA Section President **W. Michael Kenney** welcomed twelve District 13 dentists as new 2012 Fellows into the USA Section of the International College of Dentists in San Francisco on October 19, 2012. **Harold C. Slavkin**, a 1996 Fellow, addressed the audience on oral health in our country, its relationship to general health, and the need for earlier treatment and prevention in all of our health care disciplines.

FLOYD EVERETT DEWHIRST, JR.—JUNE 25, 1914-SEPTEMBER 13, 2012

Floyd Dewhirst lived a life of boundless generosity & accomplishments. Dr. Dewhirst, a graduate of USC School of Dentistry, served in the US Navy as ship's dentist and chief supply officer aboard the USS Bennington in the Pacific during WWII.

Floyd had a private practice of dentistry in West Los Angeles for 60 years. Dr. Dewhirst served organized dentistry in many capacities during his long career, including as president of the Southern California State Dental Association, and as editor of the SCDA Journal. He was a trustee of the ADA and the first dentist voting member of the American Medical Association Council on Legislation. He was an advisor to the US Department of Health, Education and Welfare as well as a dental consultant to the Secretary of Defense.

In 1984 the American College of Dentists awarded him their prestigious Gies award. Both colleges have given him their lifetime achievement awards. Floyd had a lifelong love of Yosemite Park and the Sierras. On his 90th birthday, he made the climb to the base of Vernal Falls accompanied by his family!

**BRUCE TOY NAMED
NEW REGENT**

Bruce G. Toy, DDS, Stockton, begins his term as District 13's new Regent. **Henrik Hansen**, DDS, is our new Vice Regent.

DISTRICT 14

ARIZONA

Editor: Brian Powley

Arizona ICD Class of 2012

Arizona welcomes four new Fellows: Drs. **Alexander Carroll** (Glendale), **Charlie Clark** (Gilbert), **Fred Olsen** (Phoenix) and **Stephen Sailer** (Tucson). They were inducted into Fellowship during the convocation ceremony in San Francisco on October 19, 2012.

Arizona held its annual meeting in conjunction with the Western Regional Dental Convention at the Hyatt Regency

Phoenix on Friday, March 30, 2012. During our joint breakfast with Fellows of the American College of Dentists and Pierre Fauchard Academy, Dr. **Russell Gilpatrick**, Dean of the Midwestern University College of Dental Medicine - Arizona in Glendale, presented an update on their new clinical building, curriculum, faculty and first graduating class.

ICD Student Leadership award recipients were presented with their plaques and a \$1,000 check. Fellow Dr. Russ Gilpatrick presented the leadership award and check to Dr. Matthew J. Harmon of Midwestern University College of Dental Medicine - Arizona on May 17, 2012 and Fellow Dr. **Wes Harper** presented the leadership award and check to Dr. Mark Joshua Payne of the Arizona School of Dentistry and Oral Health on June 7, 2012.

Matthew J. Harmon receives the Student Leadership Award from Dean Russell Gilpatrick

Our 2013 annual breakfast meeting will once again be held in conjunction with the Western Regional Dental Convention at the Hyatt Regency Phoenix on Friday March 8, 2013. ICD International past-president Dr. **Charley Siroky** will be presenting a retrospective which will include photos of his year as president.

Fellows from Arizona and the 14th District are looking forward to the induction and convocation ceremonies this fall in New Orleans.

COLORADO

The Colorado ICD was one of the financial sponsors of the White Coat Ceremony at the Colorado University School of Dental Medicine last year. Eighty students received their White Coats symbolizing their advancement to live patient care.

ICD Colorado Deputy Regent, Dr. Jim Setterberg, giving our annual ICD Colorado Leadership Award to Dr. Randy Kluender, Assoc. Dean for Student Affairs and Admissions at the University of Colorado School of Dental Medicine, for his ongoing leadership and service to both organized dentistry and academia.

HAWAII

Regent: Nora Harmsen

Hawaii Fellows Steve Wilhite, Nora Harmsen and Gerald Adachi

The Hawaii Chapter inducted two new members into the College this year. **Gerald Adachi** and **Steve Wilhite** joined the ranks of the Hawaii Fellows while in San Francisco. These fine men were much deserving of their Fellowship, with all of their volunteer work within the Hawaii Dental Association. We are proud to call them Fellows.

Steve Wilhite (r) is welcomed into Fellowship by International President Gary W. Lunn of Vancouver, Canada

This year's Annual Breakfast meeting was held in conjunction with the Hawaii Dental Association meeting in Honolulu. **Ed Cassella**, Deputy Regent, updated us on the Fisher House Project and the two patients we have helped with this project. He and **Larry Fujioka** have donated their time and talents to the grateful residents at the Tripler Army Medical Center location. We honored our new Fellows and then **Nora Harmsen**, District 14 Regent, gave an update on the national Fisher House project, our Humanitarian Outreach, and continuing education programs to be held this year at later meetings – the Chicago Midwinter and the Hinman.

Jon Suzuki, Fellow from Temple University, spoke to the audience about "Dentistry for Today and Tomorrow." He was able to relate the many changes in education that the students now experience. They are able to attend classes on line and work with virtual models. The biggest challenges the students are now facing is that of extreme debt once they finish school. This debt then makes it hard for them to purchase or own their own dental office. There are also many new dental schools

At the Hawaii Meeting: Regent Nora Harmsen, guest speaker Jon Suzuki, and Deputy Regent Ed Cassella

opening across the United States, but these are privately run and often more costly to attend. Dr. Suzuki asked us to continue to support and mentor these young men and women and, hopefully, they will some day be ICD members as well. We were all grateful to hear Jon Suzuki's inside look at dental education.

Our annual breakfast meeting was, as always, a great time of Fellowship and we look toward planning an enjoyable summer event for our members.

UTAH

Editor: Richard C. Engar

Drs. Norman Rounds, Gary Yonemoto, Bill Calnon and Paul Gosar

The annual meeting of the Utah Chapter of the USA Section convened its annual breakfast meeting at 7:00 a.m. in the Deer Valley Room of the Marriott Hotel on February 17, 2012. Dr. **Norm Rounds**, our Deputy Regent, freshly recovered from a serious car accident, welcomed special guests: ADA President Dr. **Bill Calnon**, 14th ADA District Trustee Dr. **Gary Yonemoto**, Congressman Dr. **Paul Gosar** of Arizona, and past-president ICD-USA Section Dr. **Newell Warr**. Dr. Rounds congratulated the newest group of Fellows who had recently been inducted during the ADA meeting in Las Vegas in 2011.

The first order of business was to hear from Dr. Scott Theurer, the current UDA President. He asked those ICD Fellows in attendance to think about what attracted them to the dental profession and encouraged them to help our younger colleagues avoid mistakes, help them deal with their educational debt and help them fill their empty chairs. He also covered current issues affecting dentistry in Utah that were before the Utah State Legislature, which was in session at the time of the Breakfast Meeting.

Convention Chair
Dr. Charles Foster

The next speaker was ICD Fellow Dr. **Charles E. Foster** who was serving as the UDA Convention Chair for the twenty-fourth time! Dr. Foster commented that convention attendance was excellent as usual and the Rocky

Mountain Association of Orthodontists was meeting with us along with an organization of periodontists which allowed for great interaction among colleagues. Dr. Foster concluded by stating that ICD members were counted as his dearest friends.

District 14 Trustee Dr. Gary Yonemoto explained that Regent Dr. **Nora Harmsen** was unable to attend but asked him to report on the Fisher House Project, which correlates with an ADA goal for dentists to be involved in more humanitarian projects. He mentioned how Dr. Harmsen was instrumental in facilitating the Fisher House project from concept to reality. He was happy to report that at the time of this meeting there were 54 "Fisher Houses" in the United States with another 16 under construction. These Fisher Houses, of course, provide a facility where the families of wounded warriors – our U.S. Veterans – have a place to stay at no charge while their soldier heroes receive necessary medical treatment. The ICD role is to provide emergency or palliative care at no charge to these family members. ICD Fellow Dr. **Lea Erickson** commented that there is a Fisher House associated with the Veterans Administration Hospital in Salt Lake City.

ADA President **Bill Calnon** greeted those present and remarked how he has enjoyed his interactions with ICD members in his home state of New York. He encouraged the ICD members present to reach out to younger colleagues and strive to make the Utah ICD Chapter relevant to younger professionals. He concluded his remarks by asserting that the ADA vision for 2012 is to be collaborative, proactive and assertive.

Dr. **Paul Gosar**, one of few dentists serving in Congress, addressed our members and emphasized what a privilege it was

for him to represent a portion of Arizona as well as the dental profession. He commented how organized dentistry plays a great role in promoting concerns of the organization and serves as a great example to medicine and other professions. He commented how he is a product of dentistry and mentors such as Dr. **A. J. Smith**.

Dr. Smith was the concluding speaker and complimented Dr. Gosar for his tenacity in getting after issues that involve dentistry and working hard to represent us. Speaking of representation, the Utah ICD Chapter was very enthused to learn of Dr. Smith's candidacy for ADA President-Elect and enthusiastically pledged support for his campaign when it was announced near the end of 2012.

DISTRICT 15

TEXAS

Regent: Bill Birdwell

District 15 has had a great year. A "first time ever" Texas officers planning retreat was held in Dallas last July to discuss present and future projects. The impetus for such a meeting was the forward thinking strategic plan of the USA Section! Officers also discussed membership enhancement and retention and identification of new Fellows. In July 2013 the officers will meet at Miramont Country Club in Bryan, Texas, to continue the tradition.

Great Expectations is just getting bigger and better with more faculty and private practice mentors and more events and interaction with students at all three Texas dental schools. In October and November, kickoff events were held and the yearly calendars were presented to the students.

In January, during our annual District breakfast, USA Section President **Paul Stubbs** was on hand to don the traditional Stetson presented by Regent **Bill Birdwell**. Dr. Stubbs gave his vision for his presidency that was totally connected to the new strategic plan. We were also fortunate to have Dr. **Robert Faiella**, ADA President, in attendance to share a few words. A highlight of the meeting was a presentation of the ICD President's award to Dr. C. **Moody Alexander**. Dr. **Kevin Seidler** presented the

Texas ICD Class of 2012

prestigious award to Dr. Alexander as the founder and organizer of Great Expectations which has been adopted by almost every District over the past four years.

Steve Matteson, our Editor, has done it again! When the Journalism Awards were handed out, he received first place in Division I for a recent article in the Texas Dental Journal.

We continue to develop relationships with the House Managers of the six Fisher Houses in Texas, hoping that we are able to provide emergent care to families of military personnel receiving medical care at military bases and Veterans Hospitals.

In closing, I have to give big Texas brags to Dr. Paul Stubbs who is our newest shining star, having been recently crowned as ICD USA President in San Francisco. **Richard Smith** continues to exude star power as he serves multiple roles in the USA and College at Large. **Leighton Wier's** star has not lost its luster as he lives on in the role of International Councilor. **Risé Martin** is our newest star, excelling as our new Deputy Regent. Indeed, the "Stars Delight, Deep in the Heart of Texas!"

DISTRICT 16

NORTH CAROLINA

ART VISITS UNC

By Veronica Grannis, Class of 2015, UNC School of Dentistry

The UNC Global Health Student Association was recently privileged to welcome Dr. Jo E. Frencken and Dr. Soraya Leal to present two seminars and a demonstration on Atraumatic Restorative Technique

Dr. Jo Frencken

Dr. Soraya Leal

(ART) to students, residents, and faculty. Dr. Frencken (Department of Global Oral Health Nijmegen, Netherlands) and Dr. Leal (Departamento de Odontogia, Universidade de Brasilia, Brazil) are almost exclusively promoting ART worldwide. Their experience of pioneering and refining the ART technique for a variety of different clinical scenarios over

the past decade was presented to the audience along with a live demonstration.

ART was first formally introduced into a dental health service in Johannesburg, South Africa, with a mobile dental unit in 1997. The technique was fully integrated into national services soon thereafter and since then has been introduced throughout Mexico and other countries. Immediate results have shown significantly fewer extractions on both the primary and permanent dentition with an increase in non-amalgam restorations on teeth not extracted. Though not commonly practiced in the United States, the three hundred ART research papers available on PubMed, including more than three systematic reviews, attest to the current international interest in the technique.

INTERNATIONAL COLLEGE OF DENTISTS

In a protocol demonstrated by Dr. Frencken, the specific hand instruments and materials of ART allow the trained dentist to efficiently remove unsupported enamel around carious lesions, excavate the infected inner material, and restore the tooth without the use of electric hand pieces or curing lights. The 'enamel excess cutter' was specifically designed for ART and is used to crumble the enamel to be removed. This instrument is less invasive than traditional methods of tooth preparation and is self limiting, creating a conservative preparation that allows access for excavation. Self-curing modified glass ionomer cement is usually the restoration of choice. ART preserves more tooth structure and induces less anxiety and pain in patients than techniques involving high speed hand pieces. Moreover, it can usually be completed without anesthesia

and the use of a rubber dam. Dentists have concluded that the process was also less stressful for them and more efficient.

ART is indicated for early childhood caries and for the permanent dentition in areas of the mouth that are hard to access or where moisture control is a challenge. ART sealants placed on any restored primary teeth also introduce a large preventive measure to the ART technique. Primarily designed for use in field clinics and schools in areas of high need, ART is now being utilized in private practice as dentists recognize the benefits of such a non-invasive technique and this is supported by clinical data. Many of the students who attended the seminars are currently preparing for overseas mission trips to Malawi, Mexico, Moldova, Nepal and Uganda in the summer of 2013 where they will have the opportunity to utilize what they have learned from the ART workshop.

The UNC SOD Global Health Organization would like to thank Drs. Ceib Phillips and Rick Mumford for their roles in arranging Drs. Frencken and Leal's visit.

VIRGINIA

Editor: Richard Roadcap

The year 2012 began with the first edition of "Sphere", the online newsletter of the ICD 16th District. Regent **Dr. William Bennett** hopes to create a sense of community among the Fellows in Virginia, North Carolina and South Carolina. **Dr. Daniel M. Laskin**, after many years of service, stepped down as ICD editor for Virginia. In June, at a breakfast meeting in the Williamsburg Lodge, five dental students from Virginia Commonwealth University received scholarships. Also, the Virginia Chapter gave \$1500 to sponsor a speaker at the VDA meeting, as well as \$500 to the Missions of Mercy Project, and \$500 to the Dean's Fund at VCU for Ethics Education. **Drs. Mayer Levy, Ralph Howell** and **John Willhide** received awards for service to the community and their profession during last year. Four doctors from Virginia were inducted as ICD Fellows in San Francisco: **Drs. Riki Gottlieb, Ray Lee, Elizabeth Reynolds, and Bhavna Shroff**. We extend a warm welcome to them and hope to add to their number at this year's meeting in New Orleans.

CONGRATULATIONS
