

Brenda and Ted Roberson

jectives, both in the USA and abroad. This can be accomplished by joint efforts of both groups to identify appropriate projects, determine funding for such projects, and identify and implement mechanisms to significantly enhance the funding for the Foundation. Also, we need to consider and identify a “branding” project for the USA Section and Foundation.

This list is not complete because there are many other issues that we will need to also address during the year. But this does highlight what I think may be some of the more important and complex issues to address.

What we all have to remember is that we are together in our commitment to make this organization even

greater. Having a cooperative relationship among the various parts of our organization is paramount. Providing worth to our members is paramount. Maintaining the sense of the “ICD Family” is paramount. Continuing to recognize worthy Fellowship candidates is paramount. None of these require extraordinary effort, just common sense and support.

Thank you for the opportunity to participate in the ongoing and future activities of the USA Section of the International College of Dentists.

Best personal regards to all of you. Please feel free to contact me at any time.

NOTES FROM THE CENTRAL OFFICE

Carol I. Turner
Registrar, USA Section

We had a fabulous convocation in Hawaii; the new Fellows really appreciated the whole experience - the orientation, the very Hawaiian conch blower at the convocation, to the elegant dinner dance. What a great way for Dr. Brady to transition to retirement with a wonderful close-out event. I can let you know too that for all his dedication and professionalism the Board of Regents has bestowed Dr. Brady with the title “Registrar Emeritus”. Well deserved to say the least.

This year the College-at-Large has formally separated from the Section and moved to a new location just down Rockville Pike. The official transition became effective

1 January 2010. Of course we still work closely together for the overall benefit of the International College of Dentists. Mary Jo and Jennifer support me in the Section office and Kathleen has moved to the ICD College-at-Large office with the new College Secretary General, Dr. Terry Hoffeld.

Our New President, Dr. Ted Roberson, has already formed his Committees and mobilized the Executive Board in preparation for a very active year. The Regents have really been working hard to make this organization spectacular. We thank Drs. James Spencer, Robert Kramer, W. Mike Kenney, William Walsh and Edward Leone Jr. for their dedicated service; and congratulate Dr. W. Mike Kenney on his selection to Vice President of the USA Section. We also welcome our new Regents Dr. Robert. Seminara (District 2), Dr. Linda Himmelberger (District 3), Dr. John Ricciani (District 4), Dr. Allen Keenan (District 12) and Dr. Nora Harmsen (District 14).

Mary Jo, Jennifer and I are here to serve you, and we thank all of you for all your support!

Carol I. Turner, DDS

Hello ...

... Goodbye

J. Terrell Hoffeld
Secretary General

I hope that I can introduce myself without causing too much additional confusion about the organizational changes reaching finality this month. My name is Terry Hoffeld and I have been a Fellow of the ICD since 1993. Most of you have read in previous issues that Carol Turner has assumed the role of Registrar of the U.S.A. Section; my purview as Secretary General will be the College-at-Large (CAL). Our two part-time positions will cover the combined responsibilities previously under the full-time auspices of Bob Brady. Even though I have only begun to serve in an official capacity as a trainee with Bob during these final two months of his eleven years overseeing the ICD, I have participated on the subcommittees that selected Kathleen Bula as the new Central Office Administrator and chose the site of the separate office space for the CAL. I have been privy to all of the discussions regarding decisions affecting the CAL, starting before the International Council meeting in May. I think that I have developed a good grasp of the scope of the CAL. I hope

Kathleen W. Bula
Cent. Office Administrator

that I can continue to broaden that understanding so that the transition, upon Bob's retirement at the end of December, can be relatively seamless. I look forward to meeting and working with those of you I do not know and to greeting again the many of you whom I have come to know through my thirty years in the U.S. Public Health Service.

As I close out my tenure as the Registrar of the USA Section and the Secretary-General of the College, I want to express my appreciation for all that you have done for the Section and the College for the past eleven years.

I have seen the Committees become very active and involve more Fellows than just the Board of Regents. As we have said time and again, the Deputy Regents are the backbone of the Section. They work hard and only through their efforts do we have a complete class of Inductees each year.

The Central Office has been fantastic in all areas. When I started, there were only two of us and now there are four. Each day brings new situations for us to deal with but somehow Mary Jo, Kathleen and Jennifer find a solution. Even though the College left the Section Office and established a new office for themselves, we are still a close-knit group and will continue to help each other as we are only a mile apart.

Carol Turner replaces me as the Registrar and I feel very comfortable with that because she is ready and can easily do the job. Terry Hoffeld replaces me as the Secretary-General and he, too, is ready and able to do the job.

It is now time for me to say goodbye. It has been a wonderful ride with wonderful people and I would do it again in a heartbeat.

Robert E. Brady
Registrar, USA Section

USA Section Foundation

The USA Section Foundation
International College of Dentists

The USA Section Foundation of the International College urges you to purchase these tax-deductible donation cards.

\$75 for a 3-card package.

These cards can be sent by you as a memorial, a congratulatory wish or a birthday wish.

The ICD Foundation supports our educational and humanitarian efforts.

Please support your ICD Foundation.

Please contact the Central Office if you are interested in purchasing Donation Cards.

In our quest to raise funds, the USA-ICD Foundation had ties and scarves made in the colors of the ICD, including the "key" logo. Not only do the funds help support the Foundation in its many charitable grants, but it is also a means of identifying yourself as a Fellow of the College. Ties and scarves are available for a tax-free donation of one hundred dollars or more. If you are interested in receiving a tie or scarf, please contact Dr. Luberto at maluberto@aol.com or by phone: 313-882-1850 or 941-753-9711. Mastercard and Visa are accepted.

ICD Ties & Scarves

Michael A. Luberto
ICD Foundation President

Be A Leader - Make A Difference

Developing, Promoting and Recognizing Leadership

Convocation & Dinner Dance

Orlando, Florida

October 8, 2010

About Orlando, Florida . . .

Orlando is one of the world's fastest-growing cities. It is among Florida's major cities and is a center for digital media and bio medicine. The City has the 9th busiest airport in the U.S. and is warm and sunny all year round.

In 1856 Orlando became the county seat of Orange County, Florida. The "Town of Orlando" was incorporated on July 31, 1875 with an area of 4 square miles. Orlando incorporated as a city in 1885.

Today, the City of Orlando as a result of numerous annexations, has an area of over 100 square miles and is still located entirely within Orange County.

Orlando might be home to some of the nation's greatest theme parks, but there's lots more that the City has to offer visitors, including The Amway Arena, Bob Carr Performing Arts Centre, Tinker Field, Expo Centre and The Florida Citrus Bowl.

KEYNOTES

USA Section - International College of Dentists

January 2010

GREETINGS FROM THE PRESIDENT

What a privilege to be President of the USA Section of the International College of Dentists!

I am completely humbled by having such an opportunity and I pledge my effort and any abilities I possess to make this organization the best it can be. This is a great organization with outstanding leaders from all over this great nation. Our Fellowship in the ICD brings instant *camaraderie* with other Fellows across the nation. No matter where you are, if you reach out, you will be welcomed and assisted by other ICD Fellows, both in the US as well as abroad!

For those who don't know me, I am a former dental school faculty member at the UNC School of Dentistry. In that regard, I served in several administrative roles, including Chair of the Department of Operative Dentistry, Director of Student Affairs, Director of Admissions, and many other administrative positions. I have also been active in local, state, and ADA activities, serving as officer in local and state organizations as well as a longtime delegate to the ADA House of Delegates. I also had leadership positions with ADA Council positions, task forces, and reference committees.

I have four grown children, three of whom are dentists as well as one son-in-law who is a dentist. My wife Brenda and I have 10 grandchildren, all of whom live close by to our home.... and that is where we try to devote much of our energy!

Although I retired in 2001, I have continued to be active in UNC, ICD, and ADA activities. Currently I am the Director of Alumni and Professional Relations and Executive Director of the UNC Dental Alumni Association as well as my role with the USA Section of the ICD.

This is an exciting time for the USA Section with many changes and plans being made or considered. There are many opportunities for us to expand and improve this great organization. Some of these activities are described below:

1. We have worked with the College-at-Large to establish independent offices for both groups, but still in close proximity to one another in Maryland. Our close working relationship and mutually supportive attitudes will provide benefits to both groups as a result of this "growing" activity.

2. We have transitioned to a new USA Registrar, Dr. Carol Turner. Dr. Turner, a retired US Naval Admiral, will head the USA's Central Office, working with Mary Jo Webster and Jennifer Greenville. She is highly qualified for this position and has already begun significant contributions in strengthening our Section. Former USA Registrar and Secretary-General of the College, Dr. Robert Brady (retired US Army General) retired as of January 1, 2010. What a contribution Bob and Jan made to the ICD! For over 10 years, the Bradys

have provided leadership, direction, and most of all friendship to the ICD family, here and abroad. We will miss Bob and Jan tremendously.

3. I am totally impressed with the productivity and thoroughness of our Board of Regents and Section's committees. Our current Regents are extremely engaged in the betterment of our Section. They are visionary and expressive in their commitment to our efforts. We are making great strides in developing our Strategic Plan, revising our Bylaws, enhancing our projects, increasing our Student Exchange program, promoting our Leadership emphasis, recognizing and assisting journalism efforts, and presenting our budgetary issues in a most understandable and usable format. I hope each of our committees will continue their remarkable efforts during 2010.

4. We need to be instantly communicable with our Fellows! This requires updating our data base with current Fellow email addresses (and I encourage every Fellow to do so by providing that information to the Central office: maryjo@usa-icd.org or jennifer@usa-icd.org!), creating our Section WebPages to reflect current and accurate content, disseminating information between districts as well as from the Central Office to districts and individual Fellows, providing "all-electronic" Candidate Information Form usage (no longer requiring "snail mail" inclusion), and having periodic communications of interesting and updated information from our Central Office to our Fellows.

5. We need to develop strategies for making sure that our Fellows perceive a worth for their Fellowship. The ICD must inspire our Fellows to be not only proud of their Fellowship but also become strong proponents of the organization. For this to occur, the ICD must be credible and meaningful. It must stand for professional values or goals that Fellows support. It must also be visionary, projecting activities that instill in its Fellows pride, ownership, and inspiration. The ICD must be viable and provide value to the member and the profession.

6. We need to strengthen the role of the Section's relationship with the USA Section ICD Foundation. We have had much financial support provided to our Foundation over the past 20 plus years and we must utilize that support for the betterment of those activities and projects that encompass our organizational goals and ob-
