Dear Fisher House Family Member,

Volunteer members of the International College of Dentists are available to help you should you have any **emergency dental needs** while you are here at the Fisher House. If you require dental care, a list of provider volunteer dentists is available from the House manager. Please contact any one of these members and advise them of your dental problem. Give their office as much information as possible, such as how long you have had the problem, where the pain is located, or if it involves a broken denture or partial denture. When making your appointment, please advise the office of any medical problems that might require special attention, including diabetes, heart disease, or need for premedication. Upon arriving at the office please be sure to have a list of your allergies and any medicines you are currently taking.

The dentist will see you as soon as they are able. If that particular volunteer dentist is not available at that time, they will refer you to another dentist on the list. The dentist will provide **emergency care** until you can return to your home dentist. The volunteer dentist will not be able to provide routine or non-emergency services. The dentist will also provide information for you to give to your personal dentist, such as a report, x-ray, etc. that will be helpful when you return home. You will not be billed or required to pay for any of the services provided. **THIS IS OUR GIFT TO YOU** with gratitude for the sacrifices your family has made on the behalf of our country.

Your house manager will give you a letter confirming that you are staying at the Fisher House. Please be sure to bring that letter with you to your appointment.

Thank you,

Fellows of the International College of Dentists
