

DISPLAY ADVERTISING OPPORTUNITIES

The best and the easiest way to get exposure to the dentists that your company needs to reach is by being an advertising partner with the International College of Dentists (ICD) USA Section. Fellowship in the ICD is awarded to only 3% of the USA’s dentists who, by the nature of their accomplishments in all aspects of dentistry are considered the most influential leaders of their profession and communities. Furthermore, the ICD USA Section produces award winning publications with a readership of over 6,600 Fellows nationwide.

Partnering with the ICD USA Section through Advertising or Corporate Sponsorship enables companies to access this prestigious group. ICD Fellows are leaders in education, research, and national, state and local dental societies. The ICD USA Section takes pride in the abundant humanitarian outreach both at home and abroad that our Fellows partake in. Our mantra of “Servings Others” defines this organization.

The philanthropic arm of the ICD USA Section is its Foundation. Placing a Display Ad or choosing to become a Corporate Sponsor will enable your company to access our esteemed membership while at the same time support the humanitarian and educational projects that the ICD is involved with in the USA and around the globe.

We look forward to welcoming you to our family of corporate partners.
