

INTERNATIONAL COLLEGE OF DENTISTS
USA SECTION AND FOUNDATION

Serving Others

The International College of Dentists (ICD), established in 1920, is the leading International honorary dental organization dedicated to the recognition of outstanding professional achievement, meritorious service, and the continued progress of the profession of dentistry for the benefit of all humankind. The USA Section of the ICD further recognizes and promotes excellence in leadership with an emphasis on service. It provides support and respect to its peers, addresses oral health needs and education throughout the world, and fosters an atmosphere of collaboration with those who share our values. Our core values are Integrity, Leadership and Service.

Deserving dentists are invited to Fellowship as recognition of their service to the public and profession. About 3% of American dentists, approximately 6,500, have been distinguished with Fellowship in the ICD USA Section. They comprise the leaders of the dental profession and represent the trailblazers in the research, teaching and clinical practices of dentistry. Internationally, the College enjoys a Fellowship of over 11,000 in over 122 countries worldwide.

The USA Section and the USA Section Foundation (our 501(c)(3) entity) work together to form corporate partnerships that enable us to fulfill our mission and achieve our goals and objectives. The organization is governed by a Board of Regents who represent Fellows from all 50 states divided into 17 Districts. The USA Section is supported by member dues and by individuals and reputable companies who are recognized as Corporate Partners. Thanks to these caring contributors, the USA Section continues to gain strength, stature and solidarity, bringing members an increasing level of service and benefits. These supporting corporate entities deserve special thanks for donating funds and materials used to support programs, projects and the day-to-day operation of the organization. Membership, Serving Others and Student Support are the Section's primary areas of focus.

The most current issue of the KEY, the official publication of the ICD USA Section, and a flash drive which gives a professional overview of "who we are" as an organization are included in this package. These give you an idea of the opportunities available for corporate partnership.

The ICD USA Section of the International College of Dentists and its Foundation welcome new sponsors at all levels. As a valued sponsor, your company will have a table outside our Convocation events and your representative will have the opportunity to network with key influencers within the dental profession. You will also be recognized at all our events and on the USA Section's website. Your support will help the ICD USA Section achieve its mission and goals.

To learn more about how your company can become a Corporate Partner, please visit our website, www.usa-icd.org and/or contact:
